

Factors that Influence the Supply and Demand for a Currency (cont' d)

- **Government action** – Governments intervene to influence the value of their own currencies, e.g., the Chinese government regularly intervenes in the foreign exchange market to keep the *renminbi* undervalued, to help ensure exports.
- **Balance of payments** is the nation's balance sheet of trade, investment, and transfer payments with the rest of the world. It reflects the difference between the total amount of money coming into and going out of a country.
