

Global Criminology: A 'news' perspective for criminological inquiry?¹

John A. Winterdyk²

Abstract

Although the study of criminology and criminal justice in Pakistan have not received much attention over the years, this article presents a 'new' model of criminological and criminal justice inquiry that may offer some promise for enlivening the study of crime and criminal justice within a broader context that is more reflective of the complex world we live in today. By reviewing the evolution of the study of crime from a provincial to comparative and international perspective, it is suggested that academic criminology scholars in Pakistan (and elsewhere around the world) embrace a global criminology perspective in an effort to better understand, explain, describe, and predict crime trends not only within Pakistan but in relation to its role and place in the international community. Global criminology is offered as a new form of criminological inquiry.

Criminology Robert Wallace Winslow, Sheldon X. Zhang, 2008 Because of recent changes in communication transportation and commerce crime has become a global phenomenon Criminology A Global Perspective was developed to address this new reality and broadens the discussion of crime and social control to the global arena Relying on data extracted from both national and international sources the book offers a comparative criminology website that compiles information on each country its history its crime statistics and more The innovation continues with a manageable approach to theories first covering general theories and then introducing new theories within the context of specific crimes Realizing that crime is no longer contained by geographic boundaries the book analyzes where crime is occurring and which theories are true universally not just in the United States True global perspective not found in competing books Comparative Criminology Website offers a virtual tour of crime throughout the world Manageable approach to theory includes three introductory chapters ch 3 5 followed by other theories presented within the context of crimes ch 6 15 An excellent book for those new to Criminology who are looking for criminal justice information about all of the countries of the world

Wael Hikal, 2009-01-01 Introduction Because of recent changes in communication transportation and commerce crime has become a global phenomenon Given that assumption criminology itself must become global in its scope This means that comparative criminology the international study of crime no longer should be treated as a separate subject Instead criminology at all levels should be comparative in nature Based upon this assumption we have designed a text for introductory criminology that is inherently comparative
