and creativity Continuity runs along lines of learning toward social coherence Creativity brings challenges and deep personal satisfaction What they say and do in Brazil aligns with ethnographic evidence from New Mexico and North Carolina from Ireland Portugal and Italy from Nigeria Turkey India and Bangladesh from China and Japan This book is about that about folk art as a sign of human unity Distributed Creativity Vlad Petre Glăveanu,2014-03-28 This book challenges the standard view that creativity comes only from within an individual by arguing that creativity also exists outside of the mind or more precisely that the human mind extends through the means of action into the world The notion of distributed creativity is not commonly used within the literature and yet it has the potential to revolutionise the way we think about creativity from how we define and measure it to what we can practically do to foster and develop creativity Drawing on cultural psychology ecological psychology and advances in cognitive science this book offers a basic framework for the study of distributed creativity that considers three main dimensions of creative work sociality materiality and temporality Starting from the premise that creativity is distributed between people between people and objects and across time the book reviews theories and empirical examples that help us unpack each of these dimensions and above all articulate them into a novel and meaningful conception of creativity as a simultaneously psychological and socio material process The volume concludes by examining the practical implications in adopting this perspective on creativity *Folk Art and Aging* Jon Kay,2016-08-08 Growing old doesn't have to be seen as an eventual failure but rather as an important developmental stage of creativity Offering an absorbing and fresh perspective on aging and crafts Jon Kay explores how elders choose to tap into their creative and personal potential through making life story objects Carving painting and rug hooking not only help seniors to cope with the ailments of aging and loneliness but also to achieve greater satisfaction with their lives Whether revived from childhood memories or inspired by their capacity to connect to others meaningful memory projects serve as a lens for focusing on remaking and sharing the long ago These activities often help elders productively fill the hours after they have raised their children retired from their jobs and or lost a loved one These individuals forge new identities for themselves that do not erase their earlier lives but build on them and new lives that include sharing scenes and stories from their memories
