

for the war, it is surely over-simple to see him as the villain of the piece. One would have liked to have known more about his advisers in Natal and the Transvaal, and especially of the famous Shepstone family, three of whom were holding key positions in the two territories at the time. Nor is Mr Binns's handling of the Colonial Office's condemnation of Frere's belligerent policy in Zululand entirely satisfactory: it appears to have accepted his views until it was really too late, and the change in attitude was probably more complex than he would have us believe.

While the anti-Boer bias is perhaps understandable, to present the Boers as simply forgers, blackguards and rogues, belittles the struggle over essentials, between Boer and Bantu farmer. While condemning British interference in Zululand, the author appears to condone it in the Transvaal by citing President Burghers' indictment of the Republic. But surely the policies in the two territories were simply different sides of the same coin. Ironically it was the annexation of the Transvaal Republic which partly led to the war, as a means, it was believed, of restoring Boer confidence in Imperial protection. Instead, by revealing the ineptitude of the British generals, while at the same time removing any danger of a Zulu attack, the Zulu War was to lead directly to Majuba.

Mr Binns, following the view of the Colenso family, shows that the Zulu king was not a hated tyrant, nor was his rule 'a pure military despotism'. Cetshwayo was a much-loved ruler who had, by and large, to abide by the general wishes of his people, as expressed by the elders of the tribe. This indeed was the lesson of the assassinations of Chaka and Dingaan. There is a certain inconsistency in his referring to Cetshwayo as a military despot—the evidence tends to point to his being as subject to the wishes of his generals as any other army head. Our thinking about Zulu history would probably be clearer could we rid ourselves of the late nineteenth-century terminology and social Darwinist *clichés* which so often embody rationalizations and justifications for European policy in South Africa.

THE SIERRA LEONE CREOLES

Creolodom: A Study of the Development of Freetown Society. By ARTHUR T. PORTER. London: Oxford University Press, 1963. Pp. xii, 151, illus., 6 maps. 21s.

Everybody, nowadays, preaches the virtues of an inter-disciplinary approach to the social sciences; and historians of Africa are more conscious than most of its advantages. But our practice may lag behind our precepts; however genuinely we admire other men's craftsmanship, when we go to work ourselves 'there's nothing like leather'. Where sociologists may still preface their work by a casual compilation of bits of information about the past which happen to be in print, and call it 'the historical background', many historians make their obeisance to the social sciences by slipping a few technical terms into an otherwise unreconstructed narrative.
