## **Crescent Moon Rising:**

Crescent Moon Rising Paul L. Williams, 2013-01-22 Forty years ago Muslims in America were a statistically insignificant minority numbering fewer than one thousand individuals. By contrast, Islam is today the second largest and fastest growing religion in America with more than six million adherents. In Crescent Moon Rising, journalist Paul L. Williams examines the phenomenal rise of Islam in the United States and discusses its implications. In the first half of the book, the author traces the beginnings of Islam in this country, in particular the rise and influence of the Nation of Islam among African Americans. He emphasizes the impact of the 1965 Hart-Celler Act, which abolished national origin quotas and led to successive waves of Muslim immigrants who entered this country from Palestine, Kuwait, Iraq, Southeast Asia, Africa, Turkey, and other parts of the world. In the second half, Williams considers statistical studies of American Muslims regarding age groups, family size, professional affiliations, annual income, and religious and political commitments. He also addresses a number of disturbing concerns about some aspects of the Muslim presence in America. These include the connections between many American mosques with Saudi benefactors who promote an ultra-orthodox anti-Western agenda; the existence of Muslim paramilitary training grounds recruiting ex-convicts; and the ties of even self-described moderate Muslim spokespersons with more politically radical elements. Informative and at times controversial, Crescent Moon Rising clearly shows that Islam will be a force to reckon with for some time in America.

Crescent Moon Rising Kerry B. Collison, 2018-10-01 At a time when Australians are wavering in support of a proposed US-led invasion of Iraq, more than six hundred US Marines rotting on Rota, then Kuta erupts in a fireball and Australia falls into line with America's demand to become part of the Coalition of the Willing. Based on indisputable fact, a step-by-step account of the Bali bombings, the rise of extremist Islamic militancy across Asia, and what the future might hold when terror is unleashed on Australia's doorstep. Crescent Moon Rising relates the rise of militant Islam across Asia and how the US and other foreign intelligence agencies missed opportunities to arrest not only the instigators of the September 11 attacks on the USA but also those who created the Jemaah Islamiyah and carried out the Bali bombings. The Bojinka Plot is uncovered in Manila, but the US ridicules the contents found on a white Toshiba laptop discovered after an apartment fire. The computer files lay out an assassination plot against the Pope who would visit that week and the detailed plan to hijack 11 aircraft and crash these into the World Trade Towers and other US targets. The timing of this event was January 1995.
