Crime Prevention Studies R. V. G. Clarke, 1993-01-01 This volume presents original research and essays on worldwide crime prevention initiatives Crime Prevention Studies, 1993 *Reorienting Crime Prevention Research and Policy* David Weisburd, 1997 Theory for Practice in Situational Crime Prevention Martha J. Smith, Derek B. Cornish, 2003-01-01 Crime Prevention Studies Volume 16 The theme of volume 16 in the Crime Prevention Studies series is the development and application of theory for use in situational crime prevention The theoretical perspectives and concepts discussed include the rational choice perspective environmental criminology routine activity theory repeat victimization problem oriented policing the script analytical approach and displacement Some of the papers critically analyze these ideas while others apply them to specific crime problems or to situational crime prevention practice **Evaluating Crime Reduction Initiatives** Johannes Knutsson, 2009 The quality of past evaluations in measuring the impact of crime prevention programs and guidelines for improving future evaluations are explored in this volume *Innovations in Community-Based Crime Prevention* Robert J. Stokes, Charlotte Gill, 2020-07-30 This book explores multi year community based crime prevention initiatives in the United States from their design and implementation through 5 year follow ups It provides an overview of programs of various sizes affecting diverse communities from urban to rural environments larger and smaller populations with a range of site specific problems The research is based on a United States federally funded program called the Byrne Criminal Justice Initiative BJCI which began in 2012 and has funded programs in 65 communities across 28 states and 61 cities This book serves to document the process challenges and lessons learned from the design and implementation of this innovative program It covers researcher practitioner partnerships crime prevention planning processes programming implementation and issues related to sustainability of community policing initiatives that transcend institutional barriers and leadership turnover Through researcher partnerships at each site it provides a rich dataset for understanding and comparing the social and economic problems that contribute to criminality as well as the conditions where prosocial behavior and collective efficacy thrive It also examines the future of this federally funded program going forward in a new Presidential administration This work will be of interest to researchers in criminology and criminal justice particularly with an interest in translational applied criminology and crime prevention as well as related fields such as public policy urban planning and sociology

Situational Crime Prevention R. V. G. Clarke, 1997-01-01 This 2nd edition features a revised and extended classification of 16 techniques of situational crime prevention 13 new case studies and over 300 new references Situational Crime Prevention should be required reading for anyone interested in innovation in policing It offers a wide range of techniques that the police can use to reduce the problems that constitute their business The superb collection of case studies persuasively illustrates how novel approaches to old problems can be developed and their effectiveness proven through rigorous evaluation The book goes to the heart of what policing is all about Professor Herman Goldstein University of

Wisconsin **Crime Prevention** Steven Lab, Steven P. Lab, 2019-07-24 Crime Prevention Approaches Practices and Evaluations Tenth Edition meets the needs of students and instructors for engaging evidence based impartial coverage of interventions that can reduce or prevent deviance This edition examines the entire gamut of prevention from physical design to developmental prevention to identifying high risk individuals to situational initiatives to partnerships and beyond Strategies include primary prevention measures designed to prevent conditions that foster deviance secondary prevention measures directed toward persons or conditions with a high potential for deviance and tertiary prevention measures to deal with persons who have already committed crimes In this book Lab offers a thorough and well rounded discussion of the many sides of the crime prevention debate in clear and accessible language including the latest research concerning space syntax physical environment and crime neighborhood crime prevention programs community policing crime in schools and electronic monitoring and home confinement This book is essential for undergraduates studying criminal justice criminology and sociology in the US and globally Online resources include an instructor s manual test bank and lecture slides for faculty and a wide array of resources for students Problem-oriented Policing ,2003 **Analysis for Crime Prevention** Nick Tilley, 2002-01-01 In this book a distinguished international team of contributors address the question of analysis for crime prevention as distinct from analysis of crime prevention It is oriented towards the generation of preventive strategies in three key ways identifies concentrations of crime or particular offences where there is a potential yield for preventive effect helps find the most efficient and effective means of prevention and helps to forecast likely future crime problems

Evidence-Based Crime Prevention David P. Farrington, Doris Layton MacKenzie, Lawrence W. Sherman, Brandon C. Welsh, 2003-09-02 Comprehensive reviews 675 crime prevention programs across the world Employs the easy to understand scientific methods scale to communicate data on what works and what does not to policy makers and practitioners as well as students and researchers Farrington is a big name on both sides of the Atlantic has been president of American Society of Criminology and British Society of Criminology as well as European Association of Psychology and Law *Handbook of Crime Prevention and Community Safety* Nick Tilley, 2013-05-13 This book provides a comprehensive authoritative and wide ranging account of the background theory and practice of crime prevention and community safety It will be essential reading for anybody with interests in these fields and will be the major work of reference on this subject for those engaged in the practice study or teaching of crime prevention The book provides a detailed overview of the main theories and perspectives informing crime prevention policy and practice and includes chapters covering efforts to address a number of the main types of crime problem It also includes chapters relating to research methodologies used in conducting and evaluating crime prevention initiatives *The Oxford Handbook of Crime Prevention* Brandon Welsh, David P. Farrington, 2014 The Oxford Handbook of Crime Prevention is the most reliable and the only comprehensive source on research and experience on the prevention of crime in the United States and across the Western world **Putting Theory to Work (reader)** ,2006 *The*

Prevention of Crime Abigail A. Fagan, Delbert Elliott, 2024-02-06 Provides an integrated and holistic review of effective crime prevention programs practices and policies their theoretical grounding the scientific evidence of their effectiveness and the practical issues involved in their implementation at the community state and national levels The *Prevention of Crime* offers a comprehensive yet easy to understand overview of crime prevention strategies such as programs and practices guided by life course developmental theories of crime situational crime prevention law enforcement practices and policies and correctional interventions Containing the most up to date and accurate information about what works in crime prevention this unique textbook introduces students to the public health and prevention science approaches to addressing the causes of crime with a focus on prevention oriented community based interventions Throughout the text the authors emphasize the importance of using high quality scientific methodologies to identify effective and ineffective interventions that are based on theory provide expert insights on practical issues relating to crime prevention in communities and discuss how practitioners can effectively implement a range of crime prevention strategies Incorporating recent advances and emerging research in the field the second edition of *The Prevention of Crime* contains new and updated coverage of developments in criminological theory and evaluation methods efforts to avoid and correct discriminatory crime prevention practices understand how and why communities make adaptations to evidence based interventions EBI strategies to investigate and communicate the impact of EBIs on different populations including members of racial ethnic minority groups and more This edition includes new links to relevant research and internet resources additional real world examples updated crime statistics and information on recent changes in EBI registries that list crime prevention interventions Describes effective interventions that have been developed tested and used in the United States and internationally Demonstrates the relationship between criminological theories research and practice Discusses the practical challenges of implementing crime prevention strategies and policies Corrects misconceptions about widely used prevention models shown to be ineffective in reducing crime Draws from cutting edge conceptual frameworks and the latest research in prevention science and crime prevention Written to be accessible to students without formal training in research methods *The Prevention of Crime* Second Edition is an excellent textbook for undergraduate and graduate programs in criminology criminal justice and prevention science programs as well as courses on psychology public health sociology and social work

Making Public Places Safer Brandon C. Welsh, David P. Farrington, 2009-11-04 *Making Public Places Safer* is the first book to assess the effectiveness and social costs of the most important surveillance methods to prevent crime in public space CCTV improved street lighting security guards place managers and defensible space Importantly the book goes beyond the question of Does it work and examines the specific conditions and contexts under which these surveillance methods may have an effect on crime as well as the mechanisms that bring about a reduction in crime *Making Public Places Safer* is a timely and reliable guide at a time when cities need cost effective methods to fight crime and the public gradually awakens to the burdens of sacrificing their privacy and civil rights

for security *Putting Theory to Work* Johannes Knutsson, R. V. G. Clarke, 2006 Situational crime prevention and problem oriented policing POP have made rapid progress during the past two decades But these two related approaches have in the past neglected implementation the stage when prevention measures are put into practice The contributing authors to this volume are all researchers with a long standing interest in crime prevention who have also been directly involved in implementing situational or problem oriented projects Their chapters provide both practical guidance and general principles concerning how to get the most out of crime prevention projects Chapter topics include lessons derived from POP projects the role of project management in community safety initiatives conflicts and tensions in implementing crime reduction measures a case study of POP implementation without self interest how central agencies should support local programs mistaking tactics for strategy in crime reduction initiatives lessons from England on success and failure mindsets set minds and implementation and guidance and good practice in crime prevention **Applied Police Research** Ella

Cockbain, Johannes Knutsson, 2014-09-15 Remarkably little has been written about the theory and practice of applied police research despite growing demand for evidence in crime prevention Designed to fill this gap this book offers a valuable new resource It contains a carefully curated selection of contributions from some of the world's leading applied police researchers Together the authors have almost 300 years of relevant experience across three continents The volume contains both practical everyday advice and calls for more fundamental change in how police research is created consumed and applied It covers diverse topics including the art of effective collaborations the interaction between policing academia and policy the interplay between theory and practice and managing ethical dilemmas This book will interest a broad and international audience from academics and students to police management officers and trainees to policymakers and research funders

Preventing Crime and Violence Brent Teasdale, Mindy S. Bradley, 2016-11-29 This insightful volume integrates criminological theories prevention science and empirical findings to create an up to date survey of crime prevention research and strategies Its interdisciplinary perspective expands on our knowledge of risk factors to isolate the malleable mechanisms that produce criminal outcomes and can therefore be targeted for intervention In addition the text identifies developmental lifespan and social areas for effective intervention Reviews of family community and criminal justice based crime prevention approaches not only detail a wide gamut of successful techniques but also provide evidence for why they succeed And as an extra research dimension the book's chapters on methodological issues and challenges uncover rich possibilities for the next generation of crime prevention studies Included in the coverage Integrating criminology and prevention research Social disorganization theory its history and relevance to crime prevention Research designs in crime and violence prevention Macro and micro approaches to crime prevention and intervention programs Implications of life course approaches for prevention science Promising avenues for prevention including confronting sexual victimization on college campuses Spotlighting current progress and continuing evolution of the field *Preventing Crime and Violence* will enhance the work of

researchers practitioners academicians and policymakers in public health prevention science criminology and criminal justice as well as students interested in criminology and criminal justice **Problem-Oriented Policing** Michael Scott, Ronald Clarke, 2020-03-19 Problem Oriented Policing Successful Case Studies is the first systematic and rigorous collection of effective problem oriented policing projects It includes more than twenty case studies from among the thousands of projects submitted for the Herman Goldstein Award for Excellence in Problem Oriented Policing The volume describes in detail the case studies and explains the wider significance of each for effective efficient and equitable policing This book explores a wide range of problems that fall under five general categories gang violence violence against women vulnerable people disorderly places and theft robbery and burglary The case studies tell stories of how police in collaboration with others successfully tackled real world policing problems fairly and effectively The authors have also drawn out of the case studies the cross cutting themes and issues they illustrate The authors prove that the concept can work bring to life the context in which police and communities addressed these vexing problems and ideally will inspire future problem oriented police work that builds on these reported successes Written in a clear and direct style this book will appeal to students and scholars of policing criminology and social studies police practitioners and crime analysts and all those who are interested in learning more about the reality of police problem solving
