Selected Poems Octavio Paz, G. Aroul, 1984 Octavio Paz asserts Eliot Weinberger in his introduction to these Selected Poems is among the last of the modernists who drew their own maps of the world For Latin America's foremost living poet his native Mexico has been the center of a global mandala a cultural configuration that in his life and work he has traced to its furthest reaches to Spain as a young Marxist during the Civil War to San Francisco and New York in the early 1940s to Paris as a surrealist in the postwar years to India and Japan in 1952 and to the East again as his country's ambassador to India from 1962 to 1968 and to various universities in the United States throughout the 1970s A great synthesizer the rich diversity of Paz's thought is shown here in all its astonishing complexity Among the sixty seven selections in this volume a gathering in English of his most essential poems drawn from nearly fifty years work are Muriel Rukeyser's now classic version of *Sun Stone* and new translations by editor Weinberger of *Blanco* and *Maithuna* And since for Paz forever in motion there can be no such thing as a definitive text all the poems have been revised to conform to the poet's most recent changes in the original Spanish Besides those by Rukeyser and Weinberger the translations in the Selected Poems are by G Aroul Elizabeth Bishop Paul Blackburn Lysander Kemp Denise Levertov Mark Strand Charles Tomlinson William Carlos Williams and Monique Fong Wust

Counter-revolution of the Word Alan Filreis, 2012-09-01 During the Cold War an unlikely coalition of poets editors and politicians converged in an attempt to discredit if not destroy the American modernist avant garde Ideologically diverse yet willing to bespeak their hatred of modern poetry through the rhetoric of anticommunism these anticommunist antimodernists as Alan Filreis dubs them joined associations such as the League for Sanity in Poetry to decry the modernist conspiracy against form and language In *Counter-revolution of the Word* Filreis narrates the story of this movement and assesses its effect on American poetry and poetics Although the antimodernists expressed their disapproval through ideological language their hatred of experimental poetry was ultimately not political but aesthetic Filreis argues By analyzing correspondence decoding pseudonyms drawing new connections through the archives and conducting interviews Filreis shows that an informal network of antimodernists was effective in suppressing or distorting the postwar careers of many poets whose work had appeared regularly in the 1930s Insofar as modernism had consorted with radicalism in the Red Decade antimodernists in the 1950s worked to sever those connections fantasized a formal and unpolitical pre Depression High Modern moment and assiduously sought to de-radicalize the remnant avant garde Filreis's analysis provides new insight into why experimental poetry has aroused such fear and alarm among American conservatives

Selected Poems Robert Duncan, 1997 Bertholf's selections are so attuned to the essentials of Duncan's writing that even those familiar with the whole body of Duncan's work will become more sensitized to his recurring imagery and consistency of thought pattern throughout this collection Publishers Weekly *The Voice That Is*

Great Within Us Hayden Carruth, 1983-09-01 What an achievement these sixty years of poetry In whatever terms we Americans regard the rest of our recent history the score of things done well and done ill this much at least we have done superlatively Hayden Carruth This famous anthology includes the works of more than 130 major American poets of the modern period Robert Frost Paul Goodman Carl Sandburg T S Eliot Ezra Pound Allen Ginsberg and Gwendolyn Brooks among them along with short biographies of each Not only the best on its period I think but is even perhaps safe from the competition of rivals Robert Lowell
