Collected Shorter Poems Kenneth Rexroth, 2013-05-10 This volume brings together all of Kenneth Rexroth's shorter poems from 1920 to the present including a group of new poems written since the publication of *Natural Numbers* drawn from seven earlier books This volume brings together all of Kenneth Rexroth's shorter poems from 1920 to the present including a group of new poems written since the publication of *Natural Numbers* drawn from seven earlier books Among the American poets of the generation that came to prominence in the Forties Kenneth Rexroth has been notable both for the independence of his personal voice and for his accessibility to the tradition of international avant garde literature He began writing and publishing in magazines at fifteen His earliest work was personal and concrete much like that of the Imagists In his twenties he wrote in the disassociative style sometimes called literary cubism developed by Mallarmé Apollinaire and Reverdy This was not free association but the conscious disassociation and recombination of the elements of the poem to achieve the highest possible level of significance With his later books Rexroth moved back to a direct and classically simple form of personal statement In this period he wrote the great nature poems the love poems and the contemplative lyrics that have established his reputation as one of the most important American poets

The Collected Shorter Poems of Kenneth Rexroth Kenneth Rexroth, 1966 **The Collected Shorter Poems** Kenneth Rexroth, 1966 *The Collected Longer Poems* Kenneth Rexroth, 1968 This is a companion volume to the *Collected Shorter Poems of Kenneth Rexroth* which was published in 1967 All of the long poems written over the past forty years are included *The Homestead Called Damascus* 1920 25 *A Prolegomenon to a Theodicy* 1925 27 *The Phoenix and the Tortoise* 1940 44 *The Dragon and the Unicorn* 1944 50 and *The Heart's Garden The Garden's Heart* 1967 68 As we read the long poems together and in sequence we can see that Rexroth is a philosophical poet of consequence who offers us a comprehensive system of values based on the realization of the ethical mysticism of universal responsibility He is concerned above all with process the movement from the Dual to the Other I have tried Rexroth writes to embody in verse the belief that the only valid conservation of value lies in the assumption of unlimited liability the supernatural identification of the self with the tragic unity of creative process I hope I have made it clear that the self does not do this by an act of will by sheer assertion He who would save his life must lose it *Chicorel Index to Poetry in Anthologies and Collections in Print* Marietta Chicorel, 1975 **Reading Poetry** Tom Furniss, Michael Bath, 2022-04-06 *Reading Poetry* offers a comprehensive and accessible guide to the art of reading poetry Discussing more than 200 poems by more than 100 writers ranging from ancient Greece and China to the twenty first century the book introduces readers to the skills and the critical and theoretical awareness that enable them to read poetry with enjoyment and insight This third edition has been significantly updated in response to current developments in poetry and poetic criticism and includes many new examples and exercises new chapters on world poetry and eco poetry and a greater emphasis throughout on American poetry including the impact traditional Chinese poetry has had on modern American

poetry The seventeen carefully staged chapters constitute a complete apprenticeship in reading poetry leading readers from specific features of form and figurative language to larger concerns with genre intertextuality Caribbean poetry world poetry and the role poetry can play in response to the ecological crisis The workshop exercises at the end of each chapter together with an extensive glossary of poetic and critical terms and the number and range of poems analysed and discussed 122 of which are quoted in full make Reading Poetry suitable for individual study or as a comprehensive self contained textbook for university and college classes

Constructions of Europe in Modern American Poetry Elin Kack,2025-11-30 American poets were at the core of the modernist movement a position largely contingent on their being in Europe But what role has European travel played in the development of American poetry since then Constructions of Europe in Modern American Poetry examines poems and other writings by over twenty American poets focusing especially on the modernist moment and the postwar generation This rich material reveals the foundational role that poets travels in and to Europe have had on the development of American poetry from the ways the modernists tackled tradition to the postwar poets reckoning with their modernist precursors in Europe s places European travel lays bare anxieties about the conflation of the roles of poet and tourist and is intimately connected to issues of poetic legitimacy and belatedness

Can Poetry Save the Earth? John Felstiner,2009-04-07 Poems vivifying nature have gripped people for centuries From Biblical times to the present day poetry has continuously drawn us to the natural world In this thought provoking book John Felstiner explores the rich legacy of poems that take nature as their subject and he demonstrates their force and beauty In our own time of environmental crises he contends poetry has a unique capacity to restore our attention to our environment in its imperiled state And as we take heed we may well become better stewards of the earth In forty brief and lucid chapters Felstiner presents those voices that have most strongly spoken to and for the natural world Poets from the Romantics through Whitman and Dickinson to Elizabeth Bishop and Gary Snyder have helped us envision such details as ocean winds eroding and rebuilding dunes in the same breath wild deer freezing in our presence and a person carving initials on a still living stranded whale Sixty color and black and white images many seen for the first time bear out visually the environmental imagination this book discovers a poetic legacy more vital now than ever

"Objectivists" 1927-1934 Tom Sharp,1982

American Poetry: The Modernist Ideal Clive Bloom,Brian Docherty,1995-09-12 Tracing its origins back to Walt Whitman the Modernist tradition in American poetry is driven by the same concern to engage with the world in revolutionary terms inspired by the concept of democracy vital to the American dream But this tradition is not confined to a few writers at the beginning of the century instead it has been an enduring force extending from coast to coast and of varying hues Imagist Objectivist Beat International in flavour but shaped by the language and conditions of America this poetry continues to speak to us today This collection of specially commissioned essays brings together leading scholars and critics to define the American Modernist canon providing a range of perspectives helpful to all those interested in this fascinating poetry
