DESCRIPTION

&Document Processing (GDP) Lessons 1-120, main text 11th Edition | Gregg College
Keyboarding and Document Processing (GDP), 11e by Ober, Johnson, and Zimmerly: Your
complete learning/teaching system. Your guide to success. GDP/11 is an integrated keyboarding
system designed to process and score documents created in Microsoft Word. Together, the book
and software systematically lead students through each lesson to provide an easy path to
success. As a solid product for over 50 years, this version of the GDP software has grown into an
online functionality. The same program is now web-based with seamless updates to provide
greater accessibility for use at home, in class, and in labs - perfect for distance learning! Strong
enhancements to the book while maintaining key elements including integrated language arts
(starting at lesson 21) support the cohesive program's strong content. Skillbuilding is reinforced
with MAP+ (Misstroke Analysis and Prescription). MAP+ is an individualized, diagnostic tool that is
built into the software to help identify student's strengths and weaknesses while providing
prescriptive drills to help them practice where they need it most. Also, MAP+ now has new,
unlimited drill lines that begin at Lesson 1. Additionally, GDP/11 automatically scores for
keyboarding errors and now formatting errors too! As a result, instructors will appreciate the
customization of course management tools in GDP/11, including the new GPS (Grade Posting
System) which allows complete flexibility in setting up grades. GDP/11 your complete
learning/teaching system. Your guide to success.
