Collision Course America East Asia In:

Collision Course Bryce Harland, 1996 America is drifting towards another collision with Asian countries This book sets the situation in perspective by tracing the development of relations between them during the last two centuries No longer needing allies as it did during the Cold War the United States is now using its economic power to force them to open their markets to its exports and to move towards Western democracy American pressure is making Asians appreciate what they have in common and helping to overcome the divisions that have kept them dependent on outside powers But collision is not inevitable America has played a critical part in the transformation of East Asia It still has much to teach and it now has much to learn as well By studying Asian experience Americans can re learn the importance of self discipline and face Asian competition without relying on their power and resorting to protectionism APEC shows the way for the United States and other Western countries to benefit from the fast growth of Asian economies and make the whole of the Pacific area more prosperous

The Asian Economic Catharsis Frank-Jürgen Richter, 2000-09-30 One result of the Asian economic crisis has been to shatter the belief that Asian ways of management are superior to Western ways Now just to survive Asian firms have come to rethink their entire way of managing and in his latest book Richter assisted by his contributing authors gives a sharply focused analysis of how they are doing it Emerging questions are how do Asian firms adjust to the new economic realities and How do they develop their management style There are plenty of new opportunities in Asia to play the new game but they must be grasped and productively channeled Richter and his contributors conclude that in the end the Asian economic crisis or catharsis may well be a blessing in disguise It provides an opportunity to completely review the way things stand in Asia Like entrepreneurs who built the Asian economies today s firms have the opportunity to lead a revival if they can redirect their businesses This is an important resource for professionals in all multinational organizations and for academics and their upper level students of international business

Harvard Studies in American-East Asian Relations Committee on American-East Asian relations (Cambridge, Mass.), Council on East Asian Studies (Cambridge, Mass.), 1972 Conservatism and the Kissinger-Mao Axis Lam Lai Sing, 2015-05-20 Kissinger's dual purpose instrument of the US China and US Soviet détente was devised to achieve a stable balance of power in the contemporary world in the second half of the 1960s Stimulated by both Kissinger's doctrine and the historical novel the Romance of the Three Kingdoms Mao's global order of tripolarity was created to feature the new US China relations in the early 1970s with his initiative of the ping pong diplomacy through this Kissinger Mao axis This made his quest for a modernization revolution possible with the Western market oriented approach Strengthening Mao's modernization program Xiaoping's good neighborhood policy was designed to induce the world to help modernize China Vitally including Russia with the collapse of the Soviet Union Deng's policy helped maintain a peaceful and stable international environment though it also marked the end of Mao's global order Perceiving the PRC's rise as a threat to its dominance in the Asia Pacific region the US containment effort was enhanced with US Japanese collusion and siding with the Philippines and Vietnam in relevant maritime disputes with the PRC The US united with the Republic of Korea nations in Southeast Asia and Australia in establishing a wide range alliance to go against the China threat The post Cold War eastward expansion of the US led NATO and the Russian determination to be a great power again contributed to tension with the United States The Russian desire to maintain its nuclear deterrent capability was at odds with the US missile defense plans Thus the US deployment of its missile shield in Eastern Europe as part of its strategic configuration in Alaska and the Far East was to contain Russia from both the Far East and Europe *East, Southeast Asia, and the Western Pacific, 2003* Steven A. Leibo, 2003 *Encyclopedia of Chinese-American Relations* Yuwu Song, 2016-03-18 Since 1784 when the American ship Empress of China arrived in Guangzhou Chinese American relations have experienced advances and setbacks As the Chinese economy rapidly expands China assumes a more dominant position in world politics and continued fruitful relations with the United States are a primary concern for both nations in the twenty first century This encyclopedia contains more than 400 descriptive entries of important events issues personalities controversies treaties agreements organizations and alliances in the history of Sino American relations from Chinese and American perspectives Also included are maps a chronology a list of acronyms and three appendices American chiefs on missions to China Chinese chiefs on missions to the United States and the correspondence of Wade Giles to Pinyin **New Zealand International Review**, 1997 Contemporary Southeast Asia, 1996 *East Asian Regionalism and United States Security* Bernard K. Gordon, 1968 This study prepared by the Chairman of the Southeast Asia project at RAC seeks to analyze the nature of American security interests in East Asia in order to relate the concept of Asian regionalism to those interests **New Zealand Defence Quarterly**, 1997 *Encyclopedia of Western Colonialism Since 1450: A-E* Thomas Benjamin, 2007 Provides students and

researchers with a much needed comprehensive resource on the subject of colonialism and expansion From a global perspective the set traces many facets of colonial growth and imperialism and much more **Americans in Eastern Asia** Tyler Dennett,1922 East, Southeast Asia and the Western Pacific 2002 Publications Stryker-Post,Steven A. Leibo,2002-08 The Economist ,1895 **The Future Balance of Power in East Asia** Paul Dibb,2008 An historic shift is occurring in the global balance This century will see the assertion of Asia as the locus of world power and the relative decline of Europe The United States will remain the dominant power for a long time perhaps until the middle of the century But the world will progressively become a multipolar world with three Asian great powers China Japan and India and one Eurasian power Russia competing with the United States The central question of the next 20 years will be whether this new correlation of forces in Asia is a peaceful one or one of competition and conflict Asias future will be determined by whether there is a cooperative and largely peaceful interaction between China Japan India Russia and the United States or whether there will be a much more unstable struggle for influence and power in the years ahead New pressures are emerging that could change all this climate change the struggle for scarce resources particularly energy ageing populations and the fact that economic growth is inevitably leading to greater expenditure on arms and nuclear weapons There are other serious problems looming in Asia outstanding territorial claims deep seated historical antipathies combined with rising nationalisms ethnic and religious clashes and the fact that globalisation is not benefiting all countries or all regions or people within a country equally Publisher The Peace of Illusions Christopher Layne,2006 In a provocative book about American hegemony Christopher Layne outlines his belief that U S foreign policy has been consistent in its aims for more than sixty years and that the current Bush administration clings to mid twentieth century tactics to no good effect What should the nation s grand strategy look like for the next several decades The end of the cold war profoundly and permanently altered the international landscape yet we have seen no parallel change in the aims and shape of U S foreign policy The Peace of Illusions intervenes in the ongoing debate about American grand strategy and the costs and benefits of American empire Layne urges the desirability of a strategy he calls offshore balancing rather than wield power to dominate other states the U S government should engage in diplomacy to balance large states against one another The United States should intervene Layne asserts only when another state threatens regionally or locally to destroy the established balance Drawing on extensive archival research Layne traces the form and aims of U S foreign policy since 1940 examining alternatives foregone and identifying the strategic aims of different administrations His offshore balancing notion if put into practice with the goal of extending the American Century would be a sea change in current strategy Layne has much to say about present day governmental decision making which he examines from the perspectives of both international relations theory and American diplomatic history **East, Southeast Asia, and the Western Pacific, 1998** Steven A. Leibo,1998-08
