YOHANNAN MOORE (HEPHZIBAH. ZARADIN, JOHN.),2021-07 **Reflexive Self-Consciousness** Eugene Halliday,2019-10 How can we deal with the rapidly increasing pace and complexity of life fear of terrorism and the threatening state of world affairs climate breakdown the confusions of personal relationships without succumbing to stress depression and illness Halliday provides a way to assimilate the shocks of life experiences so that we might live a more balanced life The way to achieve this is through reconnecting with the centre of our own being our consciousness Halliday sets out not only the nature of this consciousness but also its relation to the world of phenomena to the nature of being and in particular to mankind He begins by examining the meaning of terms such as sentience consciousness and awareness They are to some degree interchangeable and refer to That in and by which we know what we know and that we know If we ask ourselves what this statement means we can only say that We know what we mean Consciousness is its own evidence and thus we cannot indicate what we mean by one of these consciousness related words without appealing to that in us which corresponds with their significance that is to that in us which knows that it knows Halliday sees a complex structure such as the brain as a vehicle for the expression of the complex processes of an already existing sentience He posits that the ultimate source and origin of our being resides in an absolute field of sentience and states that the true nature of the self is consciousness itself But as beings with physical bodies we are tyrannised by the limitations of our sense organs by the pursuit of pleasure and the avoidance of pain by emotional charges in the records of our experiences so that we often behave in a reactive manner as if we were no more than animals with no free choice But if we remember the nature of our true self and our source in consciousness we can free ourselves from this enslavement and become human that is capable of free choice and action **Radical Knowing** Christian de Quincey,2005-08-16 A radical reassessment of what we mean by

consciousness and how we experience it in relation to others Shows the importance of integrating different ways of knowing such as feeling and intuition reason and the senses in our approach to life Discusses the technique of Bohmian Dialogue where you can learn not only to feel your thinking but also to experience true communion with others In Radical Knowing Christian de Quincey makes a provocative claim We are not who we think we are Instead we are what we feel Giving disciplined attention to feelings reveals the most fundamental fact of life and reality We are our relationships Most of us think we are individuals first and foremost who then come together to form relationships De Quincey turns this obvious fact on its head and shows that relationship comes first and that our individual sense of self our private consciousness actually arises from shared consciousness This shared collective consciousness is at the heart of indigenous ways of life and their worldviews De Quincey explains that participating in shared consciousness literally builds the fabric of reality and that understanding this process is key to unlocking our potential for higher consciousness and spiritual evolution He presents the technique of Bohmian Dialogue developed by groundbreaking quantum physicist David Bohm as one method for experiencing this powerful process He also explores the mystery of synchronicity offering a new understanding of the relationship between matter and mind and the underlying nature of reality *Yogacara Texts: Indo-Tibetan Sources of Dzogchen Mahamudra* Rodney Devenish,2013-09-24 The Yogacara Doctrine teaches one fundamental truth namely that all beings are Buddha sattva Buddha evam or in other words all beings are aspects of one all embracing absolute awareness were they but to know it This book sets a context for the study and meditation on ten pivotal texts of Yogacara The source texts translated from a practice perspective derive from the Indo Tibetan mahasiddha tradition and are presented with an ecumenical approach As this collection of pithy Yogacara works will readily prove to the reader the ancient Practice Tradition of the Yogin rnal bhyor pa i sgrub brgyud is based on a clearly active realization of the essential nature of mind and consciousness gained through years of intensive examination and reflection Yogacara approach advocates a dynamic form of meditation that is neither suppressive nor lethargic The guide to this attainment the mechanism that sharpens the mind s penetrative and illuminative qualities is metaphysical inquiry *The Hermitage Meditation Manual* Rodney Devenish,2013 All you need to know to properly learn how to meditate a comprehensive 500 page workbook a complete course for practitioners of Yoga and Meditation Published by the Dharma Fellowship of His Holiness the Gyalwa Karmapa the Hermitage Meditation Manual is the key guide used by Buddhist monastics and lay practitioners attending the Fellowship s centers in North America In an accessible style the manual explains how to enter the meditative state deepen that state how to gain meaningful insights how to radically improve life for the better while pursuing the Path of Awakening Here are the authentic methods of Calm abiding Meditation Love Meditation Intuitive Insight Mindfulness Chapters cover not only the teachings of the Buddha but explain the nature of the Human Constitution the Syndromes of the Personality the mystery of Double Consciousness Hatha yoga Light body circuitry applied M t **The British National Bibliography** Arthur James Wells,2003 **Whitaker's Books**
