## **Collins Biographical Dictionary Of Scientists:**

Collins Biographical Dictionary of Scientists Trevor Illtyd Williams,1994 Provides biographical information on 1300 eminent scientists and technologists Includes an appendix chronological table of birth and death dates and a subject index

Thornton and Tully's Scientific Books, Libraries and Collectors Andrew Hunter,2016-12-05 In the 25 years since the last edition of Thornton and Tully s Scientific Books Libraries and Collectors was published scientific publishing has mushroomed developed new forms and the academic discipline and popular appreciation of the history of science have grown apace This fourth edition discusses these changes and ponders the implications of developments in publishing at the end of the twentieth century while concentrating its gaze upon the dissemination of scientific ideas and knowledge from Antiquity to the industrial age In this shift of focus it departs from previous editions and for the first time a chapter on Islamic science is included Recurrent themes in several of the ten essays in the present volume are the definition of science itself and its transmutation by publishing media and the social context Two essays on the collecting of scientific books provide a counterpoint and the book is grounded on a rigorous chapter on bibliographies The timely publication of Scientific Books Libraries and Collectors comes at the coincidence of the advent of electronic publishing and the millennium a dramatic moment at which to take stock

**Astronomers and Cosmologists** Dean Miller,2014-01-01 In this book a breakdown of the life and work of some of history s pioneers in the study of astronomy and cosmology are thoroughly explored This volume provides excellent biographical sketches for trailblazers in the sciences Articles are devoted to specific scientists covering the contributions to their field specifically addressing how their research discoveries and inventions impacted human understanding and experience This historical review includes scientists from around the world and throughout the centuries with a chapter specifically devoted to the top scientific contributors of the 21st century

**History Of Science In The U.S.** Clark A. Elliott,2021-11-18 First published in 1996 The intention of this volume is two fold first to give a chronologically arranged overview of selected data on the history of science in the United States and second to orient the reader to the substantial reference literature and research sources as guidance to further study of the topic The subject areas that are covered include astronomy biology chemistry geology mathematics physics and their related disciplines areas such as anthropology and psychology are covered to a lesser extent Science is the central focus but the content of the work recognizes that the boundaries between subjects or activities are not absolute and certainly not when coverage spans several centuries

**World Who's who in Science** Marquis biographical library (Chicago, Ill.), **Metals and the Royal Society** D. R. F. West,2024-11-01 In this book two distinguished metallurgists have traced the role of metallurgical technology in the creation of the scientific revolution and the formation of the Royal Society

**A to Z of Marine Scientists** Barbara Charton,2003 Profiles more than 150 scientists from around the world who made important contributions to the field of marine science including George Bass Viktor Hensen Arnold Lang and Marie Tharp

Telling Lives in Science Michael

Shortland, Richard R. Yeo, 1996-06-27 Collects together original essays by leading historians of science on the nature and development of scientific biography World who's who in science Allen G. DEBUS, 1968 **The British National Bibliography** Arthur James Wells, 1998 *Catalogue of the Reference Library* Birmingham Free Libraries. Reference Department, John Davis Mullins, 1890 *Scientists Since 1660* Leslie Howsam, 1997 A reference to over 500 scientists whose career started around or after the beginning of modern science taken here to be about the founding of the Royal Society For each lists full length biographies including autobiographies in chronological order to demonstrate the historical development Man *A catalogue of modern works on science and technology. 2nd, 4th, 5th, 7th, 8th, 10th-14th, 16th-19th, 22nd-25th, 35th, 39th, ed* sir George Christopher T. Bartley, 1882 **The School Science Review**, 2007 Walford's Guide to Reference Material Marilyn Mullay, Priscilla Schlicke, 1996 *The Magic Zone* Ralph Gunther, 2003 The present volume introduces the reader to a wide range of information about the men and women who won Nobel Prizes Excerpts from their life histories from their achievements in the sciences and arts are interspersed with an array of anecdotes and chance occurrences which make for highly entertaining reading Between 1901 and 2002 more than seven hundred people were awarded Nobel Prizes Covering a time span of 102 years the book contains more than two hundred well researched sketches and the notion that if history is the essence of many biographies the biographies of the Nobel laureates alone can throw a prominent light on the twentieth century and the beginning of the twenty first The Natural History and Scientific Book Circular, 1871 **Birmingham free libraries. Catalogue of the reference library** John Davis Mullins, 1886 **A Dictionary of Scientific Bird Names** James A. Jobling, 1991 This dictionary gives the derivation and meaning of all valid scientific bird names Many fascinating details emerge from the author's meticulous work in tracking down obscure meanings A short but very informative introduction explains the history and purposes of scientific nomenclature and the basic features of Latin in this context It also discusses the ways in which birds have been named for their appearance for a person or place or for some aspect of their habitat behaviour food or voice or with reference to their native language name There is a full bibliography at the end of the volume Each part of the name is defined separately so that *Passer domesticus* for example will not be found as such but both *Passer* and *domesticus* are explained in their respective alphabetical places The usefulness of the Dictionary will thus not be affected by future taxonomic revisions of generic or species names About 8500 names are defined including a selection of historical synonyms This book will find a permanent place on every ornithologist's shelf and will be a valuable reference source for everyone whose work or interests bring them into contact with birds *Choice*, 1995
