Colombia Inside The Labyrinth:

Colombia, Inside the Labyrinth Jenny Pearce,1990 *Inside Colombia* Grace Livingstone,2004 This work is an introduction to who s who and what is really happening in Columbia In one volume it brings together the best material published on the war the economy social impact and prospects of peace in Columbia The Challenges of Creating Democracies in the Americas Alex Roberto Hybel,2019-07-22 This book s leading goal is to explain why some states in the Americas have been markedly more effective than others at forming stable democratic regimes The six states analyzed are the United States Mexico Colombia Venezuela Costa Rica and Guatemala The study identifies the critical challenges each state encountered at different stages of its state creation and regime formation processes from the colonial period to the present In its concluding chapter the study presents a series of time related hypotheses designed to capture the different evolutionary processes and explain variances in success **Shooting Up** Vanda Felbab-Brown,2009-12-01 Most policymakers see counterinsurgency and counternarcotics policy as two sides of the same coin Stop the flow of drug money the logic goes and the insurgency will wither away But the conventional wisdom is dangerously wrongheaded as Vanda Felbab Brown argues in *Shooting Up* Counternarcotics campaigns particularly those focused on eradication typically fail to bankrupt belligerent groups that rely on the drug trade for financing Worse they actually strengthen insurgents by increasing their legitimacy and popular support Felbab Brown a leading expert on drug interdiction efforts and counterinsurgency draws on interviews and fieldwork in some of the world s most dangerous regions to explain how belligerent groups have become involved in drug trafficking and related activities including kidnapping extortion and smuggling *Shooting Up* shows vividly how powerful guerrilla and terrorist organizations including Peru s Shining Path the FARC and the paramilitaries in Colombia and the Taliban in Afghanistan have learned to exploit illicit markets In addition the author explores the interaction between insurgent groups and illicit economies in frequently overlooked settings such as Northern Ireland Turkey and Burma While aggressive efforts to suppress the drug trade typically backfire *Shooting Up* shows that a laissez faire policy toward illicit crop cultivation can reduce support for the belligerents and critically increase cooperation with government intelligence gathering When combined with interdiction targeting major traffickers this strategy gives policymakers a better chance of winning both the war against the insurgents and the war on drugs

Terrorists' Target Selection C. Drake,1998-08-26 The author examines the factors which influence terrorists target selection In particular he looks at the influence of the ideologies strategies and tactics of terrorist groups and describes how these are restricted by the terrorists resources by protective and anti terrorist measures by the society within which the terrorists operate and by the nature of the terrorists and their supporters He concludes that terrorists target selection is often both explicable and logical In the wilds of South America; six years of exploration in Colombia, Venezuela, British Guiana, Peru, Bilingia Argentina, Paraguay and Brazil Leo Edward Miller,1918 *Urban Labyrinths* Pablo Meninato,Gregory

Marinic,2024-03-29 *Urban Labyrinths Informal Settlements Architecture and Social Change in Latin America* examines intervention initiatives in informal settlements in Latin American cities as social spatial architectural and cultural processes From the mid 20th century to the present Latin America and other regions in the Global South have experienced a remarkable demographic trend with millions of people moving from rural areas to cities in search of work healthcare and education Without other options these migrants have created self built settlements mostly located on the periphery of large metropolitan areas While the initial reaction of governments was to eliminate these communities since the 1990s several Latin American cities began to advance new urban intervention approaches for improving quality of life This book examines informal settlement interventions in five Latin American cities Rio de Janeiro Medell n S o Paulo Buenos Aires and Tijuana It explores the Favela Bairro Program in Rio de Janeiro during the 1990s which sought to improve living conditions and infrastructure in favelas It investigates projects propelled by Social Urbanism in Medell n at the beginning of the 2000s aimed at revitalizing marginalized areas by creating a public transportation network constructing civic buildings and creating public spaces Furthermore the book examines the long term initiatives led by SEHAB in S o Paulo which simultaneously addresses favela upgrading works water pollution remediation strategies and environmental stewardship It discusses current intervention initiatives being developed in informal settlements in Buenos Aires and Tijuana exploring the urban design strategies that address complex challenges faced by these communities Taken together the Latin American architects planners landscape architects researchers and stakeholders involved in these projects confirm that urbanism architecture and landscape design can produce positive urban and social transformations for the most underprivileged This book will be of interest to students researchers and professionals in planning urbanism architecture urban design landscape architecture urban geography public policy as well as other spatial design disciplines *Militants, Criminals, and Warlords* Vanda Felbab-Brown,Harold Trinkunas,Shadi Hamid,2017-11-28 Conventional political theory holds that the sovereign state is the legitimate source of order and provider of public services in any society whether democratic or not But Hezbollah and ISIS in the Middle East pirate clans in Africa criminal gangs in South America and militias in Southeast Asia are examples of nonstate actors that control local territory and render public services that the nation state cannot or will not provide This fascinating book takes the reader around the world to areas where national governance has broken down or never really existed In these places the vacuum has been filled by local gangs militias and warlords some with ideological or political agendas and others focused primarily on economic gain Many of these actors have substantial popularity and support among local populations and have developed their own enduring institutions often undermining the legitimacy of the national state The authors show that the rest of the world has more than a passing interest in these situations in part because transborder crime and terrorism often emerge but also because failed states threaten international interests from trade to security This book also poses and offers answers for the question How should the international community respond to local orders

dominated by armed nonstate actors In many cases outsiders have taken the short term route accepting unsavory local actors out of expediency but at the price of long term instability or damage to human rights and other considerations From Africa and the Middle East to Asia and Latin America the local situations highlighted in this book are and will remain high on today s international agenda The book makes a unique contribution to global understanding of how those situations developed and what can be done about them This title is part of the Geopolitics in the 21st Century series War in Colombia International Action Center (New York, N.Y.),2003 Publisher Description **CJLACS.** ,2003 *Notes on Colombia* Richard Bache,1827 The text consists of a log and running narrative of the author s travels throughout Colombia in 1822 1823 with many anecdotes of Colombia s War of Independence and reports of conversations with locals **Colombia** Krzysztof Dydyński,1995 Colombia the country with the best coffee is a gloriously fertile green country with friendly helpful people and a wealth of spectacular sights and many attractions little know so far by foreigners The Caribbean coastline the appeal of Cartagena and its rich colonial history the magnificent gold museum in Bogot and climbing in the Andes are all covered in this new guide International Journal ,1993 *Latin American and Caribbean Studies in the Humanities and Social Sciences in the Universities of the United Kingdom* ,1997 **Revolutionary Social Change in Colombia** James J. Brittain,2010-01-15 An insider s account of Colombia s guerrilla war *Taking Machismo to Court* Martha I. Morgan,1999 **William and Mary Environmental Law and Policy Review** ,2004 *Report on the Americas* ,1989 *SOA Alumni and Human Rights Abuse* Vicky Imerman,1999 *International Current Awareness Services* ,1993 Indexes current publications in anthropology including material too ephemeral for its parent annual the International bibliography of social and cultural anthropology and has only limited coverage of monographs
