We're looking for a freelance writer to write in-depth guides and blogs for a company that helps young professionals build in-demand tech skills through apprenticeships.

The client offers paid apprenticeship programs in the UK and US. They are similar to coding bootcamps, but unlike them, they don't charge students a tuition fee.

What you'll be doing

 Writing 3,000–4,000 words per month on career, tech, and apprenticeship topics.

 Editing your work with typically one, but no more than two rounds of revisions.

 Communicating with an SEO Content Strategist to deliver content and coordinate deadlines.

Qualifications

 You have at least 2 years of experience writing high-quality blogs and SEO content (bonus if you have experience as an apprentice in the UK or knowledge of the UK education system)

 You have links to or a portfolio of relevant work.

 You have a growth mindset—you listen to feedback and believe writers can continuously hone their craft.

 You're detail-oriented. You proofread your content for grammar and writing best practices and understand the nuances of writing for different brands and audiences.

 You value quality over quantity. You research, fact-check, and proofread your content consistently. You have strong communication and time management skills.

What to expect

-We'll start with a 20-30 minute 'get to know you' Zoom chat. Then, we'll do one paid test article. If it's a good fit, we'll scale up to more per month.

-Freelancer writer rates typically range from .20 to .30 per word, depending on experience and writing quality.

Freelancing Foundations is structured to be used as a reference guide and Josh includes screenshots of what you should and shouldn't do in various areas. One of the most frequently misunderstood aspects of working as a freelancer on Upwork is how the Job Success Score (JSS) works. This is the most critical metric on Upwork and not approaching it correctly can make the difference between a successful career and failing to launch. Josh commits an entire section to understanding the JSS, digging into how the JSS is calculated, why you don't have one JSS, you actually have three, how contracts are weighted differently as they factor into your JSS, avoiding common JSS pitfalls, how to overcome JSS problems when they occur, establishing an excellent Job Success Score right away, the benefits of a good JSS, how to keep your JSS stable. After you've gotten started on Upwork, the trickiest parts can be finding the right jobs, picking good clients, and maintaining a steady work flow. A substantial portion of Freelancing Foundations is dedicated to optimizing your job feed to discover contracts that are perfectly suited to you, using advanced search filters to eliminate jobs you don't want, knowing the difference between what a freelancer sees and a client's view, how each aspect of your profile affects the way clients search for you. Finally, the book concludes with a section on operating successfully as a freelancer. You'll learn how to identify soft skills you should prioritize, interact with even the most difficult clients, understand the culture of freelancing, maximize your rates and give yourself regular raises, set workdays, establish working hours, and create a vacation time policy. Josh began freelancing as a last resort, hoping to earn a bit of side cash. A quarter million dollars later, it's obvious this last-ditch effort paid off. In Freelancing Foundations, he shows you how to do the same.
