Ruthven,2005-05-20 CoLIS 5 was the fifth in the series of international conferences whose general aim is to provide a broad forum for critically exploring and analyzing research in areas such as computer science, information science and library science. CoLIS examines the historical, theoretical, empirical and technical issues relating to our understanding and use of information, promoting an interdisciplinary approach to research. CoLIS seeks to provide a broad platform for the examination of context as it relates to our theoretical, empirical and technical development of information centered disciplines. The theme for CoLIS 5 was the nature, impact and role of context within information centered research. Context is a complex, dynamic and multi-dimensional concept that influences both humans and machines, how they behave individually and how they interact with each other. In CoLIS 5 we took an interdisciplinary approach to the issue of context to help us understand and the theoretical approaches to modelling and understanding context, incorporate contextual reasoning within technology and develop a shared framework for promoting the exploration of context.
