Alternative Futures for Worship Volume 2 Mark Searle,1987 These volumes provide creative and provocative analysis of each of the Church's seven sacraments **New Ecclesial Ministry** Zeni Fox,2002 In this revised edition of her groundbreaking original volume Zeni Fox emphasizes the crucial relationship between lay ecclesial ministers and the Church's response to them in light of the many developments in recent years Written in a clear crisp style the book is divided into three parts Part one describes the present reality both sociological research about who these new lay professionals are and a review of the ways in which theologians are reflecting upon this new phenomenon The second part explores the new reality from the standpoint of tradition including Scripture the documents of Vatican II and the work of U S bishops The final part assesses this reality in light of the tradition and outlines steps needed to more fully integrate lay leaders into the fabric of the Church **Dancing to the Post-modern Tune** Tobias O. Okoro,2010 *Religions and Discourse* explores religious language in the major world faiths from various viewpoints including semiotics pragmatics and cognitive linguistics and reflects on how it is situated within wider intellectual and cultural contexts In particular a key issue is the role of figurative speech Many fascinating metaphors originate in religion e.g revelation as a garment apostasy as adultery loving kindness as the circumcision of the heart This Assembly of Believers Bryan Cones,2020-11-30 Among the symbols with which the liturgy deals none is more important than this assembly of believers This claim made in the 1970s forces the local church to consider those within its congregation and recognise the gifts and challenges of difference within the church community In This Assembly of Believers Bryan Cones seeks to take seriously the pastoral context of a congregation recognising the physical ability gender and sexuality of those who make up the congregation Starting each chapter with their lived experience Cones poses important questions of the liturgy in light of these experiences before realigning the liturgy to demonstrate the positive theological significance of the marginalised within the congregation **Theatrical Theology** Wesley Vander Lugt,Trevor

Hart, 2014-07-31 Theology is inherently theatrical rooted in God's performance on the world stage and oriented toward faith seeking performative understanding in the theatre of everyday life Following Hans Urs von Balthasar's magisterial five volume *Theo Drama* a growing number of theologians and pastors have been engaging more widely with theatre and drama producing what has been recognized as a theatrical turn in theology This volume includes thirteen essays from theologians and pastors who have contributed in distinct ways to this theatrical turn and who desire to deepen interdisciplinary dialogue between theology and theatre The result is an unprecedented collection of essays that embodies and advances theatrical theology for the purpose of enriching theological reflection and edifying the church
