Alternative Learning Environments:

The Rationale for Creation, Development and Evaluation of Alternative Learning Environments Within the Public Schools with Special Emphasis on the Open-informal Classroom Francis Sander Blom,1973 **Alternative Learning Environments** Gary J. Coates,2023-09-22 Originally published in 1974 this volume presents viable alternatives to traditional attitudes and practices in environmental design and education It contains 29 selections that reflect the thought and actions of leaders from many diverse disciplines and professions Architects landscape architects urban planners teachers and administrators psychologists and social theorists address themselves to controversial and important issues facing our post industrial society The range of subjects explored in the volume is far reaching Environmental education in which the art of planning and designing itself becomes the curriculum Advocacy planning and community participation in both educational and design decision making Alternative educational institutions ranging from community centered schools and mobile schools to non school learning networks that distribute the learning activity throughout the fabric of the city and the lifetime of the learner New developments in systematic design methods and evaluation research that promise to make the design process more public and responsive to the user client **Shifting School Design to the 21st Century** Bryan H. Perez,2017 There is a need for major change in our educational system and in particular the design of schools Our existing school model was defined in the mid to late 1800s as a response to the Industrial Revolution and does not reflect the needs of the next generation of 21st century students One of the key elements of change in schools is the shift from confined classrooms towards alternative learning environments spaces that are designed for a specific learning type or activity This thesis focuses on secondary education and examines three schools identified as having innovative school designs While all three schools are professionally recognized as innovative institutes by the American Institute of Architects AIA Committee on Architectural Education CAE their local AIA chapter and or by the Association for Learning Environments James D MacConnell Award they vary in curriculum program requirements size and site context The research of these schools uses a qualitative mixed method approach to measure the effectiveness of alternative learning environments in secondary schools It is conducted through a combination of an inventory and analysis of each school s program and spaces as well as through a questionnaire sent to the faculty staff and administration of each school to assess the use and qualities of the alternative learning environments in their schools The objective of this research is to identify the positive and negative impacts of the alternative learning environments on the school s organization curriculum educators and students **Administration of and Curriculum for Alternative Learning Environments** John F.
