The Development of a Common Framework Scale of Language Proficiency Brian North, 2000 Scales describing language proficiency in a series of levels can provide orientation for educational programmes criteria for assessment and reporting to stakeholders However in most cases such instruments are produced just by expert opinion A scale of language proficiency actually implies a descriptive scheme related to theory but usable by practitioners It also implies a methodology for scaling content to different levels This book describes the use of both qualitative and quantitative

techniques to develop scales for the Common Reference Levels in the Common European Framework of Reference for modern languages Short stand alone descriptors were i developed and classified ii refined and elaborated in workshops and then iii scaled by analyzing the judgments of one hundred teachers on the English language proficiency of the learners in their classes
