**The Red and the Black** Brian A. Sparkes,2013-10-16 The Red and the Black covers the major stages in the history of Greek pottery production both figured and plain as they are understood today It provides an up to date evaluation of ways of studying Greek pottery and encourages new approaches There is a detailed analysis of the subject matter of figured scenes covering some of the main preoccupations of ancient Greece myth fantasy and everyday life Furthermore it sets the artefacts in the context of the societies that produced them highlighting the social art historical mythological and economic information that can be revealed from their study This volume also covers a hitherto neglected area the history of the collecting of Greek pottery through the Renaissance and up to the present day It shows how market values have gradually increased to the high prices of today and goes on to take a closer look at the enthusiasm of the collectors

**A Catalogue of Greek Vases in the Collection of the University of Melbourne at the Ian Potter Museum of Art** Peter Connor,Heather Jackson,Ian Potter Museum of Art,2000 The catalogue of the University of Melbourne's superb collection of Greek vases is now published as a sumptuous fully colour illustrated cloth covered volume which will suit the needs of students researchers and interested readers This richly illustrated book is a collectors item designed and produced to library specifications It offers the complete scholarly apparatus for study of the vase collection one of the finest in the country and comparable with others around the world It will prove valuable as a reference text wherever classics archaeology or art are studied The book is a product of one of the most outstanding Classical Studies departments in Australia and is destined for libraries throughout the world It is the first volume in a series planned to feature various aspects of the University's wider collection Each vase fully described and documented appears in rich colour and detail Styles and periods are introduced by contextualising photographs presented as dramatic double page spreads No effort has been spared to publish this collection as beautifully as these unique artifacts deserve

**The Oxford History of Classical Art** John Boardman, 2001 The art and architecture of Greece and Rome lie at the heart of the classical tradition of the western world and their legacy is so familiar as to have become commonplace The legacy may appear simple but the development of classical art in antiquity was complex and remarkably swift It ran from near abstraction in eighth century BC Greece through years of observation and learning from the arts of the non Greek world to the east and in Egypt to the brilliance of the classical revolution of the fifth century which revealed attitudes and styles undreamt of by other cultures After Alexander the Great this became the art of an empire readily learned by Rome and further developed according to the Romans special character and needs until it provided the idiom for the imaging of Christianity In this book the story of this pageant of the arts over some 1500 years is told by five leading scholars Their aim has been to demonstrate how the arts served very different societies and patrons tyrannies democracies empires the roles and objectives of the artists the way in which the classical style was disseminated far beyond the borders of the Greek and Roman world but especially the splendour and quality of the arts themselves And their method is to engage the interest of the reader by a rich succession of illustrations on to which the narrative is woven

**Guide to Research in Classical Art and Mythology** Frances Dodds Van Keuren, 1991 Learning to use the research tools to unravel the intricate terminology of classification of antiquities is a formidable task Van Keuren s

work aims to enable students both to use these tools and to devise projects for their own research After a major reference is presented handbooks and monographs are successively identified in ways that suggest patterns of information These patterns will allow students to formulate hypotheses to undertake original research With use of the library collection original questions can be asked and answered Greek vases: lectures by J. D. Beazley, D.C. Kurtz ed.- John C. Boardman, Athenian red figure vases, the classical period: a handbook, 1989. Significant details: systems, certainties and the art-historian as detective. [Review]. Jas Elsner, The Ancient World, 2005 **The Antiquaries Journal**, 1998 *Transactions of the American Philological Association* American Philological Association, 1992 **The Cambridge Ancient History** David M. Lewis, John Boardman, J. K. Davies, M. Ostwald, 1992 Volume V of the new edition of *The Cambridge Ancient History* encompasses the first Classic age of European civilization the fifth century BC This was the first and last period before the Romans in which great political and military power was located in the same place as cultural importance This volume therefore is more narrowly focused geographically than its predecessors and successors and hardly strays beyond Greece Athens is at the center of the picture both politically and culturally but events and achievements elsewhere are assessed as carefully as the nature of our sources allows Two series of narrative chapters one on the growth of the Athenian empire and the development of Athenian democracy the other on the Peloponnesian War that brought them down are divided by a series of studies in which the artistic and literary achievements of the fifth century are described
