

Atlanta Review Fall 1995

**Leonard Unger,A. Walton Litz,Molly
Weigel,Jay Parini**

Atlanta Review Fall 1995:

Leading Issues in Black Political Economy Thomas D. Boston, 2018-01-16 Leading Issues in Black Political Economy brings together the foremost experts on issues ranging from employment training and education of African Americans. It also emphasizes macro economic concerns of business development with special emphasis on long term trends of black owned businesses. The work emphasizes welfare considerations in an anti welfare epoch and the role of affirmative action now that it is under attack. Attention is given to the role of race in the continuing disparity of income distribution in American society. The highlights of Leading Issues include An Employment and Business Strategy for the Next Century A Comment by Thomas D Boston Long Term Trends and Prospects for Black owned Business by Andrew F Brimmer Is the U S Small Business Administration a Racist Institution by Timothy Bates Worker Re Training and Labor Market Outcomes A New Focus for Labor Research by James B Stewart Race Cognitive Skills Psychological Capital and Wages by Arthur H Goldsmith William Darity Jr and Jonathan R Veum and Reparations and Public Policy by Richard F America. The overall findings suggest that empirical wage equation specifications do matter. The role of psychological capital is critical in the marketplace. Race is indeed an important determinant of wages especially when the influence of both cognitive skills and psychological capital are included in the wage equation. This volume will be of crucial interest to economists political scientists sociologists and policy analysts studying African American life. Thomas D Boston is editor of the Review of Black Political Economy and professor of economics at the Georgia Institute of Technology. He is the co editor with Catherine L Ross of The Inner City Urban Poverty and Economic Development in the Next Century also available from Transaction. *Index to Black Periodicals 1995* G K HALL, G. K. Hall and Co. Staff, 1996-11. **The Carter Presidency** Gary M. Fink, Hugh Davis Graham, 1998. After the Nixon and Ford administrations liberal Democrats hoped Jimmy Carter's election in 1976 would restore the New Deal agenda in the White House. Instead during four tumultuous years in office Carter endorsed many of the fiscal and economic policies later espoused by his Republican successor Ronald Reagan. But Carter also backed most New Deal social programs and however reluctantly pursued a traditional containment foreign policy. In this book more than a dozen eminent scholars provide a balanced overview of key elements of Carter's presidency examining the significance of his administration within the context of evolving American policy choices after World War II. They seek not only to understand the troubled Carter presidency but also to identify the changes that precipitated and accompanied the demise of the New Deal order. By the time Carter took office many Americans had become disenchanted with big government and welfare spending and his presidency is viewed in these pages as a transitional administration. As this volume demonstrates Carter's dilemma emerged from his effort to steer a course between traditional expectations of federal government and new political and economic realities. While most of the contributors agree that his administration may be justly criticized for failing to find that course they generally conclude that Carter was more successful than his critics acknowledge. These thirteen original essays cover such topics as the economy

trade and industrial policies welfare reform energy environment civil rights feminism and foreign policy They offer thoughtful assessments of Carter s performance focusing on policy both as cause and effect of the post industrial transformation of American society that shadowed his administration A final essay shows how Carter s public spirited post presidential career has made him one of America s greatest ex presidents Grounded on research conducted at the Carter Library The Carter Presidency is an incisive reassessment of an isolated Democratic administration from the vantage point of twenty years It is a milestone in the historical appraisal of that administration inviting us to take a new look at Jimmy Carter and see what his presidency represented for a dramatically changing America

Georgia Women Betty Wood, Kathleen Ann Clark, Ann Short Chirhart, 2009 The essays in the second volume of Georgia Women portray a wide array of Georgia women who played an important role in the state s history from little known Progressive Era activists to famous present day figures such as Pulitzer Prize winning author Alice Walker and former First Lady Rosalynn Carter
