Atlantis The Eighth Continent:

Atlantis, the Eighth Continent Charles Berlitz, 1984 For thousands of years before the beginning of recorded history the legends tell us a powerful civilization flourished in the middle of the Atlantic Ocean This breathtakingly advanced island continent boasted splendid cities golden temples crowded seaports from which the far reaching influence of Atlantis spread to the rest of the world until its destruction in an overwhelming cataclysm Now based on careful study of scientific undersea research Charles Berlitz proves that Atlantis is not legend but fact and unravels a mystery even more startling than the Bermuda Triangle What message lies buried with the mighty stone structures deep beneath the Atlantic What profound revelations about Atlantis have come to us from beyond the Earth Was Atlantis destroyed in an ancient nuclear war What great centers of Atlantean culture yet await discovery

Atlantis, the Eight Continent Charles Berlitz, 1984 **Above the Line** Shirley MacLaine, 2016-03-01 A funny fierce imaginative memoir chronicling New York Times bestselling author and Academy Award winner Shirley MacLaine s remarkable experiences filming Wild Oats in the Canary Islands and the extraordinary memories her time there brought forth of a past life on the lost continent of Atlantis Her agent advised her not to get on the plane The male leads weren t even cast The financing was shaky at best The script had been rewritten countless times And yet something about Wild Oats lured Shirley MacLaine to the film s location shoot in the far off Canary Islands and straight to the center of one of the most thrilling and paradigm shifting adventures of her life The making of the film reads like a screwball comedy as the cast and crew face unpredictable daily obstacles with ingenuity grit and personal sacrifice Yet the chaos leads Shirley to a revelatory new understanding of the demise of one of history s most elusive yet endlessly intriguing places Scholars have long theorized that Spain s Canary Islands are the remnants of the mighty lost continent of Atlantis As the movie set descends into pandemonium Shirley finds fascinating corollaries between the island s cataclysmic fate and our own dangerous trajectory Can we learn the lessons the citizens of Atlantis failed to comprehend The answer is borne out of recovered memories from Shirley s past life on Atlantis and through a series of meditations that reveal the necessity of unfettered imagination when looking for bold new truths rendering this evocative irreverent and honest memoir essential reading for anyone seeking a broader understanding of what it means to be human both where we came from and where we are going
