Ester, Michael Braun, Peter Ph Mohler, 2006 This book provides insights in and explanations of the varieties and similarities in values in Europe in a number of life spheres at the turn of the millennium **2006 Catalogue**, 2006 Europe and Its Regions Gerd Grözing, Wenzel Matiaske, Katharina Spiess, 2008 Europe is getting closer So are European social sciences However this is easier done in theory development and central research questions When it comes to data the mutual understanding is far from perfect due to a lack of knowledge about the data bases of the respective countries and the EU in general This volume will help to improve the insight into the rich stock of European datasets which cover any kind of regional information Many institutions ranging from statistical offices to more academic research centres and commercial enterprises report their offerings with special emphasis on the regional level e.g. European Community Household Panel European Social Survey Labour Force Survey Values for a Global Society Albert H. van den Heuvel, 2001 Choice, 2008 *Religious Values & the Rise of Science in Europe* John Hedley Brooke, Ekmeleddin İhsanoğlu, 2005 In his famous *The Protestant Ethic* Max Weber presented the idea that the peculiar work ethic of Protestantism contributed significantly to the rise of science and technology in western Europe and ultimately to the formation of the world as it is today About Islam Weber did not have much good to say In his *Economy and Society* the Muslims appear as followers of a warrior cult Even though researchers have been challenging these theories for many years they appear to be quite persistent and are still frequently evoked in present day debates This collection of articles edited by John Brooke and Ekmeleddin İhsanoğlu is another contribution to a more balanced and differentiated perspective in the debate around fruitful or negative relations between religion and science Summary Doubleday, Page & Co.'s Geographical Manual and New Atlas Christopher Orlando Sylvester Mawson, 1917 **Protection of Cultural Diversity from a European and International Perspective** Hildegard Schneider, Peter van den Bossche, 2008 The protection of cultural diversity has become an important issue on the agenda of many international organizations and fora The G8 the Council of Europe the European Union and UNESCO have all expressed the need for the protection of cultural diversity *Geochemistry*, 2008 **European Solar Radiation Atlas: Inclined surfaces** Wolfgang

Palz,1984 **Europe Old and New** Ray Taras,2008-07-31 Is Europe indeed uniting or instead falling apart as a result of anti immigrant prejudices a massive Islamic influx and ancient intra European hatreds This innovative and engaging book explores this key question by examining the national and religious phobias and prejudices antipathies and sympathies stereotypes and heterotypes of Europe west and east Considering the sources of Europe s culture based divide Ray Taras argues that the idea of two Europes is grounded both in reality and myth The accession process that brought a dozen new members into the European Union after 2004 highlighted the persisting gulf between old and new Europe While many concrete borders between east and west were removed commercial legal passport regimes many remained absence of a single Euro currency zone labor market and security community Virtual borders too were invented or re imagined the postmaterialist inclusionary tolerant values supposedly found in old Europe versus the materialist nationalistic xenophobic ones of new Europe After reviewing the two Europes contrasting historical legacies Taras examines the EU institutions designed to overcome the historical European divide He considers the treaties political rhetoric citizen attitudes and literary narratives of belonging and separation that both bind and fray the fabric of Europe Throughout this interdisciplinary work provides a comprehensive hard hitting and unabashed review of how enlarged Europe embraces contrasting understandings of its political home and of who belongs and who does not
