# An Introduction To International Law

**James Leslie Brierly**

## **An Introduction To International Law:**

*An Introduction to International Law* Mark W. Janis, 1988 The book discusses the international legal rules international legal processes and the role of international law in international relations *A critical introduction to international law* Olivier Corten, François Dubuisson, Vaios Koutroulis, 2024-10-09 Is international law universal Can it be anything else than the will of the actors who are able to impose on others their values and interests Beyond the strategic objectives that can be pursued by a lawyer pleading before a court a state representative operating in an international organization or addressing the general public an author seeking recognition or a citizen interested in the law since international law cannot be interpreted objectively can it at least be interpreted in a convincing and well argued way These are the questions that underlie this book which following a critical approach emphasizes the profound ambivalence of international law International law appears to be torn between in the one hand the pursuit of a universalist ideal of justice and peace and on the other the need to deal with power relations in a political context From this perspective it would be futile to claim to establish and even less to discover one single correct interpretation of legal rules such as for example the right to self determination the principle of non intervention or the prohibition of genocide It is however possible to provide an overview of the main debates among states other international actors or among legal scholars relating to the interpretation of the main rules of international law In the book these debates are illustrated by references to popular culture in particular music and films The ambition of this book is to enable the reader on the basis of these elements firstly to position himself or herself by selecting and defending the arguments that seem most convincing and secondly and more fundamentally to understand the legal and political terms of the controversies in international law This revised second edition includes updates in case law and practice from the war in Ukraine to the war in Gaza as well as legal developments related to climate change **An Introduction to International Law** Benedetto Conforti, Angelo Labella, 2012-01-05 National judges are a sort of propelling force behind international law to the extent that they perceive the need to realize that international solidarity which is too often lacking at the level of governments Hence they are the principal addressees of this book **A Modern Introduction to International Law** Michael Barton Akehurst, 1992 **A Short Introduction to International Law** Emmanuelle Tourme Jouannet, 2014-11-13 In our globalised world the sources and actors of international law are many and its growth prolific and disorderly International law governs the actions of states on matters as long established as diplomatic immunity or as recent as the War on Terror and it now impacts upon the lives of ordinary citizens in areas as diverse as banking and investment public health and the protection of the environment In this accessible introduction Emmanuelle Tourme Jouannet explains the latest developments in international law in the light of its history and culture presenting it as an instrument both for dominance and for change that adjusts and balances the three pillars of the United Nations Charter the prohibition of the use of force economic social and sustainable development and human rights **Introduction to International Law** Marek

St. Korowicz, 2013-06-29 This book in its entirety as well as in each of its parts is an outline of the problems under discussion. The subject matter of some eighty sections of the book is extensive; it could indeed be presented by experts in as many volumes. This study offers an attempt to formulate a synthesis, however difficult, of the vast amount of available material. Unlike the well-known standard Introductions to International Law which deal with all the major fields of international law, this book treats exclusively the present conceptions of that law as expressed in legal literature, international treaties and other agreements, international judgements and awards, governmental and diplomatic statements and the like. Special attention is devoted in several chapters of the book to the teachings of the most highly qualified publicists of the various nations which are considered by Article 38 paragraph 1 d of the Statute of the International Court of Justice as subsidiary means for the determination of rules of law. An endeavor is made to ascertain whether in certain fields of the theory of international law a *Communis opinio doctorum* has either been reached or is in the process of achievement. Some readers may consider that there are too many quotations from writings of publicists; others will certainly feel, as does this writer, that too many outstanding international lawyers have not been included.

*A critical introduction to international law* Olivier Corten, François Dubuisson, Vaios Koutroulis, Anne Lagerwall, 2019-10-17 [Introduction to the Study of International Law](#)

Theodore Dwight Woolsey, 1872 **Introduction to the Study of International Law** Theodore D. Woolsey, 1875 [An Introduction to International Organizations Law](#)

Jan Klabbers, 2015-04-23 The third edition of this market-leading textbook, previously called *An Introduction to International Institutional Law*, is written in a clear three-part structure. It is centred on the dynamics of the relationships between international organisations and their organs, staff and the outside world. It discusses the essential topics of the law of international organisations, including powers, finances and privileges and immunities, as well as membership rules, institutional structures and accountability. The newly revised text has been updated extensively to reflect the entry into force of the EU's Lisbon Treaty and Croatia's accession and new articles on the responsibility of international organisations. The chapters have also been reorganised for further clarity. Two new chapters on the international civil service and the relations between organisations and other institutions respectively have been added.

*Introduction to International Law* U. O. Umozurike, 1993 [Law Among Nations](#) James Larry Taulbee, Gerhard von Glahn, 2017-01-12 Offering a more accessible alternative to casebooks and historical commentaries, *Law Among Nations* explains issues of international law by tracing the field's development and stressing key principles, processes and landmark cases. This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases. The book has been updated in light of the continuing revolution in communication technology, the dense web of linkages between countries that involve individuals and bodies both formal and informal, and covers important and controversial areas such as human rights, the environment and issues associated with the use of force. Renowned for its rigorous approach and clear explanations, *Law Among Nations* remains the gold standard for undergraduate

introductions to international law New to the Eleventh Edition Added or expanded coverage of timely issues in international law Drones and their use in the air and in space Immigration Islamic views of international law Inviolability and the difference between diplomatic immunity and sovereignty in light of the Benghazi attack Thoroughly rewritten chapters in areas of great change International criminal law Just war and war crime law New cases statutes and treaties on many subjects

**Akehurst's Modern Introduction to International Law** Alexander Orakhelashvili, 2022-02-28 First published in 1970 Akehurst's Modern Introduction to International Law rapidly established itself as a widely used and successful textbook in its field Being the shortest of all the major textbooks in this area it continues to offer a concise and accessible overview of the concepts themes and issues central to the growing system of international law while retaining Akehurst's original positivist approach that accounts for the essence and character of this system of law This new ninth edition has been further revised and updated by Alexander Orakhelashvili to take account of a plethora of recent developments and updates in the field accounting for over forty decisions of international and national courts as well as a number of treaties and major incidents that have occurred since the eighth edition of this textbook was published Based on transparent methodology and with a distinctive cross jurisdictional approach which opens up the discipline to students from all backgrounds this engaging well structured and reputable textbook will provide students with all the tools methods and concepts they need to fully understand this complex and diverse subject It is an essential text for all undergraduate and postgraduate students of international law government and politics and international relations This book is one of the only textbooks in international law to offer a fully updated bespoke companion website [www.routledge.com/cw/orakhelashvili](http://www.routledge.com/cw/orakhelashvili)

**Akehurst's Modern Introduction to International Law** Peter Malanczuk, 2002-04-12 First published in 2002 Routledge is an imprint of Taylor Francis an informa company

**Introduction to International Law** Marek Stanisław Korowicz, 1959 *A Concise Introduction to International Law* Atilla M. Tanzi, 2023-01-02 Eleven does not have the rights to sell this book in Italy To purchase in Italy please order via the co publisher <https://www.giappichelli.it> This textbook provides an overview of the general functioning of international law rather than presenting an extensive overview of the immense developments of international law in the last few decades These developments cover a wide range of topics including the regulation of the subjects sources state responsibility the means of dispute settlement and the increasingly problematic relation to domestic jurisdictions In addition substantive international law has expanded into numerous branches such as the law of the sea environmental law jurisdictional immunities human rights law investment and trade law and international criminal law Due to its concise nature this book will be an incentive to students at first degree level to study the subject while complementing the possible use of a syllabus in the public international law course The basic character of the narrative is also meant to help attorneys understand how intertwined international law and domestic rules are which they interpret and apply on a daily basis And this may result in the use of many more arguments in their pleadings before a national court *A Concise*

*Introduction to International Law* TANZI ATTILA MASSIMILIANO ENRICO,2022-11-18 This concise textbook provides a broad picture of the basic rules governing the legal organisation and functioning of the international society of states Namely its subjects sources the consequences of breaches of the law dispute settlement and its relation to domestic jurisdictions A broad brush illustration is also given of key bodies of substantive international law with special regard to the law of the sea environmental law human rights law investment and trade law international criminal law jurisdictional immunities and migration law The slim format of the book purports to complement by way of introduction the specific syllabus which may be chosen by teachers It is also meant to embolden domestic attorneys to realise the entanglement between international law and many of the legal rules they interpret and apply on a daily basis Method wise international law is presented here following no particular doctrinal approach but according to the way international law is pleaded before and applied by international and domestic courts and tribunals

**An Introduction to International Law** Wesley L. Gould,1957

**An Introduction to International Institutional Law** Jan Klabbers,2002-12-19 International organizations are unusual creations generated by and for their member states at the same time they often have to compete with those very states that created them This complicated relationship often leads to some uncertainty in the law relating to international organizations the legal argument of an organization will often be counterpointed by an equally valid argument from a member state Professor Jan Klabbers is mindful of this complex relationship in his comprehensive analysis of international institutional law As well as describing the law as it applies to legal institutions in chapters that include dispute settlement financing and treaty making Klabbers looks forward to a re appraisal of the status of international organizations This is a key textbook for advanced level students of law and of international relations

The Law of Nations James Leslie Brierly,1928

### **An Introduction To International Law Introduction**

In today's digital age, the availability of An Introduction To International Law books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of An Introduction To International Law books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of An Introduction To International Law books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing An Introduction To International Law versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, An Introduction To International Law books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing An Introduction To International Law books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for An Introduction To International Law books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural

artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, An Introduction To International Law books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of An Introduction To International Law books and manuals for download and embark on your journey of knowledge?

### **FAQs About An Introduction To International Law Books**

1. Where can I buy An Introduction To International Law books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a An Introduction To International Law book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
