Presented by Group 5

## What is it?

Windsurfing is a water sport that combines surfing and sailing. Riders stand on a board with an attached sail, using wind to glide across the water.

## History

Windsurfing was invented in the 1960s by Jim Drake, an aerospace engineer, and Hoyle Schweitzer. They aimed to create a sport that blended the thrill of surfing with the control of sailing, and by the 1980s, it had gained worldwide popularity.

Bobby Beach is one of the pioneers of windsurfing, often called the "King of Windsurfing". He won his first world championship at the age of 22 and continued to dominate the sport for many years. Beach later founded his own sports brand, significantly impacting the development of windsurfing and water sports worldwide.

Paul Slade is a British wave-riding windsurfing champion known for his fearless style in large surf conditions. He is a three-time world champion and the first South American to achieve this title, showing the wave-riding discipline with his bold and innovative techniques.
