B. Fyfe,2015-07-29 This collection of literature attempts to compile many of the classic works that have stood the test of time and offer them at a reduced affordable price in an attractive volume so that everyone can enjoy them **The Outbreak of Peace** H. B. Fyfe,2011-07-19 When properly conducted a diplomatic mission can turn the most smashing of battle successes into a fabulous Pyrrhic victory It was a great pity Space Marshal Wilbur Hennings reflected as he gazed through the one way glass of the balcony door that the local citizens had insisted upon decorating the square before their capitol with the hulk of the first spaceship ever to have landed on Pollux V A hundred and fifty years probably seemed impressive to them amid the explosive spread of Terran colonies and federations Actually in the marshal s opinion it was merely long enough to reveal such symbols as more than antiquated but less than historically precious I presume you plan to have me march past that heap he complained tugging at the extremely historical sword that completed the effect of his dazzling white and gold uniform UN Peace Operations Eirin Mobekk,2016-12-08 This book assesses the UN Peace Operations in Haiti and establishes what lessons should be taken into account for future operations elsewhere Specifically the book examines the UN s approaches to security and stability demobilisation disarmament and reintegration DDR police justice and prison reform democratisation and transitional justice and their interdependencies through the seven UN missions in Haiti Drawing on extensive fieldwork and interviews conducted in Haiti it identifies strengths and weaknesses of these approaches and focuses on the connections between these different sectors It places these efforts in the broader Haitian political context emphasises economic development as a central factor to sustainability provides a civil society perspective and discusses the many constraints the UN faced in implementing its mandates The book also serves as a historical account of UN involvement in Haiti which comes at a time when the drawdown of the mission has begun In an environment where the UN is increasingly seeking to conduct security sector reform SSR within the context of integrated missions this book will be a valuable

contribution to the debate on intervention UN peace operations and SSR This book will be of interest to students of peace operations and peacekeeping conflict studies security studies and IR in general *The Bystander*, 1915 Outbreak of Peace Isaac Shapiro, 1997 **The Advocate of Peace**, 1898 **Messenger of Peace**, 1925 A Treaty of Peace Between the United States and Spain United States, United States. President (1897-1901 : McKinley), 1899 Proceedings of the ... American Peace Congress, 1907 World Peace Foundation Pamphlets World Peace Foundation, 1927 Pamphlets compiled by various authors and institutions and published by the foundation to educate people on the waste and destructiveness of war and to promote international justice and the brotherhood of man Founded in Boston in 1910 by Edwin Ginn the foundation concerned itself with many of the events leading up to and including World War I and its aftermath as well as the promotion and operation of the League of Nations In October 1917 when this collection begins the foundation changed the title of its pamphlet series to League of Nations It discontinued this title in 1923 with volume 6 no 3 and returned to the World Peace Foundation series title and described itself as the American agent for the official publications of the League of Nations **A Religion of Truth, Justice and Peace** Isidore Singer, 1924 **The Realities of Reality - Part IV: The Reality Behind Achieving World Peace** Fritz Dufour, MBA, DÉSS, 2020-04-05 This book is organized in seven chapters Chapter one looks at the origins and the causes of war The chapter argues that war is a consequence of how we as a species have evolved War has both endogenous and exogenous causes While the former depends on our biology and psychology the latter has to do primarily with international relations Chapter two makes the case for the paradoxical nature of war While war takes lives it is legitimate under certain circumstances For example armed humanitarian interventions are allowed to save lives among local populations at the expense of the oppressors by employing all necessary means ethical or not Chapter three asks if peace among nations is achievable which is the main theme of this book However it does not elaborate on the question entirely Instead it gives sort of a prelude of what will be discussed in the remaining of the book by talking about the concepts of world order and American hegemony arms race and peacebuilding Chapter four builds on three by looking at realism idealism and pacifism in international relations As to pacifism the chapter attempts to answer the question what was the most peaceful time in history Chapter five presents the elements of hope for world peace by considering the role played by the following 1 the United Nations 2 the North Atlantic Treaty Organization NATO 3 the Organization for Security and Cooperation in Europe OSCE 4 the non governmental organizations NGOs 5 the role of nuclear deterrence 6 globalization 7 transnationalism 8 diplomacy 9 sports 10 international cooperation in space exploration 11 the Nobel Prize and 12 the declining of war and violence in modern times On the other hand chapter six presents the opposite argument or the barriers to world peace using the following points 1 the proliferation of nuclear weapons 2 geoeconomics 3 terrorism 4 the global refugee crisis 5 the profitability of arms sales and 6 the profitability of wars It makes an interesting argument especially as to the profitability of wars by showing how the United States first emerged as an imperial and a world power in the 1890s then

as the only world's superpower after World War II Finally chapter seven takes a proactive approach by peering into the future of armed conflict which is likely to take place in new environments Cyberspace the littoral choke points near space and increasingly in expanding cities or slums War The chapter concludes with a discussion on the Doomsday Clock a concept stemmed from the uncertainty as to the future of mankind because of armed conflicts and which is a symbol that represents the likelihood of a man made global catastrophe The American Peace Society Edson Leone Whitney,1928
