

I just finished a day of campaigning here in Iowa, and things are going great. I asked David, my campaign manager, to give you an update on where we stand in Iowa. I think it reflects exactly what I'm sensing on the ground - that people are hungry for change!

So thanks for all you've done. You've been with us from the start, and I wouldn't be here without you.

wonderful teacher I've tried learning enough about graphology before to use as an adjunct to my mentalism performances but it never stuck And I quickly became bored With Julian's system once the info is in your head it isn't easily leaving And I found the whole process fun Julian has set this up in a way that you get constant reinforcement for your efforts and just want to keep going Bill Cushman I have finished Julian's book on Graphology and highly recommend it Julian has condensed a large amount of information on graphology into an easily memorized system and provided a presentation that is short sweet and can be done on the back of a business card I like to explain how I am getting my information as I am doing the reading and Julian's system is perfectly suited for this In fact it is so simple to explain that your subject will likely go away believing they have learned something valuable even in the unlikely event that most of your reading doesn't hit the mark so you really cannot lose Anyone that is interested in Graphology should definitely pick up this book John Lumber As a long time graphologist I've perused Julian's manuscript and can attest that it is exactly as described He's taken some of the real meat of the subject and found a way to explain it clearly and simply AND to do it in a wicked clever mnemonic sort of structure that makes it quite easy to remember And therefore easy to explain to others He's done a lot of hard mental work so that you won't have to Well worth the price tag for those who wish to use it
