

Analysis of transference:

- Sandor Ferenczi stated that transference is universal phenomenon – a “special form of displacement”
- In psychoanalytic theory, transference occurs when a client projects feelings about someone else, particularly someone encountered in childhood, onto her therapist.
- There are three types of transference:
 - Positive transference
 - Negative transference
 - Sexualized transference

Essential Papers on Transference Aaron H. Esman,1990-09 A collection of central papers on transference the psychoanalytic phenomenon of adult repetition of childhood experiences Among Freud s discoveries none has proved more theoretically valid or clinically productive than his demonstration that humans regularly and inevitably repeat with the analyst patterns of relationship fantasy and conflict experienced in their childhood Transference phenomenon and its analysis in therapy is the cornerstone for much psychoanalytic work It s crucial importance has been and continues to be a matter of debate among psychoanalysts Essential Papers on Transference presents the central papers on the subject of transference from Freud s time to our own Although many reflect viewpoints within the psychoanalytic mainstream efforts have been

made to be as inclusive as possible thus neo Freudian Kohutian and Lacanian statements are represented The book underscores the fact that the meaning the therapeutic use and even the theoretical explanation of transference and transference phenomena have undergone significant changes over the years Using the Transference in Psychotherapy
