proposed solutions to particular problems Besides these and other differences however there are also many similarities and there are even some who intentionally develop traditional metaphysical themes using the contemporary analytical methods All these developments call for detailed exploration which is the general goal of the present publication Metaphysics Aristotelian Scholastic Analytic The publication is the fruit of the conference which took place in Prague in 2010 and which had for its aim to bring together those willing to explore relations between the traditional and contemporary concerns both from among the leading analytic philosophers working in metaphysics and the historians of philosophy devoted to the study of the metaphysical tradition The specific focus of the conference was a re examination of topics such as categories metaphysical structure substance and accident existence modalities and predication
