Signs and Society Richard J. Parmentier,2016-10-03 A major voice in contemporary semiotic theory offers a new perspective on potent intersections of semiotic and linguistic anthropology In Signs and Society noted anthropologist Richard J Parmentier demonstrates how an appreciation of signs helps us better understand human agency meaning and creativity Inspired by the foundational work of C S Peirce and Ferdinand de Saussure and drawing upon key insights from neighboring scholarly fields

Parmentier develops an array of innovative conceptual tools for ethnographic historical and literary research Parmentier's concepts of transactional value metapragmatic interpretant and circle of semiosis for example illuminate the foundations and effects of such diverse cultural forms and practices as economic exchanges on the Pacific island of Palau Pindar's Victory Odes in ancient Greece and material representations of transcendence in ancient Egypt and medieval Christianity Other studies complicate the separation of emic and etic analytical models for such cultural domains as religion economic value and semiotic ideology Provocative and absorbing these fifteen pioneering essays blaze a trail into anthropology's future while remaining firmly rooted in its celebrated past

Systematic Methods for Analyzing Culture H.J. François Dengah II, Jeffrey G. Snodgrass, Evan R. Polzer, William Cody Nixon, 2020-12-29 Systematic Methods for Analyzing Culture is a practical manual that provides step by step instruction for collecting and analyzing cultural data This compact guide explains complex topics in straightforward and practical terms via research examples textual and visual software guides and hands on exercises Through each chapter's introductory examples the manual illustrates how socially learned knowledge provides group members with shared understandings of the world which allow for mutually intelligible interactions The authors then carefully walk readers through the process of eliciting those socially learned shared and thus cultural representations of reality which structure the thinking and practice of individuals inhabiting social groups Specifically the book shows how researchers can elicit such thought and behavior via methods such as free lists pile sorts cultural consensus and consonance analysis textual analysis and personal network research The book will help both undergraduate and graduate students identify ways to unpack the black box of culture which may be absent or given only cursory attention within their training and respective fields The book's clear and systematic step by step walkthroughs of each method will also encourage more established researchers educators and practitioners from diverse fields and with varying levels of experience to integrate techniques for assessing cultural processes into their research teaching and practice

Action Research Methods S. Klein, 2012-06-18 In Action Research Methods the authors acknowledge that the methodology component is where most of the struggle and confusion lies with students in research methods courses The overall aim is to assist master's level education students with practical and theoretically grounded approaches to the action research process
