An Introduction to the Study of the Kabbalah William Wynn Westcott,2005-11-01 It may be that the Catholic Church was from its origin in the possession of the Hebrew Rabbinic secret of the intentional Exoteric nature of the Bible from An Introduction to the Study of the Kabbalah From The Da Vinci Code to the public pronouncements of devotion from rock musicians and movie stars curiosity about Judeo Christian esoterica is at a new high And this 1910 primer to the Kabbalah the arcane Jewish mysticism remains an exciting introduction to the philosophy explaining its provocative speculation on our role in the grand divine design of the universe and offering tantalizing hints of the tradition s cryptic devotional and magical practices British doctor and metaphysician WILLIAM WYNN WESTCOTT 1848 1925 was supreme magus of the Rosicrucian Society and wrote numerous works on such topics as alchemy astrology numerology and theosophy **An Introduction to the Study of the Kabbalah** Eduardo Freitas,2018-03-02 An Introduction to the Study of the Kabbalah first came to light in 1910 by William Wynn Westcott 17 December 1848 30 July 1925 he was a Freemason Theosophist Ceremonial Magician Coroner Doctor of Medicine and also the Supreme Magus chief of the S R I A Societas Rosicruciana in Anglia also was one of the founders of the Hermetic Order of the Golden Dawn In his own words Students of literature philosophy and religion who have any sympathy with the Occult Sciences may well pay some attention to the Kabbalah of the Hebrew Rabbis of olden times for whatever faith may be held by the enquirer he will gain not only knowledge but also will broaden his views of life and destiny by comparing other forms of religion with the faith and doctrines in which he has been nurtured or which he has adopted after reaching full age and powers of discretion **An Introduction to the Study of the Kabbalah** William Wynn Westcott,2020-10-13 An Introduction to the Study of the Kabbalah by English coroner ceremonial magician theosophist and Freemason William Wynn Westcott was originally published after delivery in the form of lectures to a Society of Hermetic Students in 1888 The late Victorian period due to rising new age movements saw a renewed interested in non western religions and the occult sciences one of those being the Hebrew mysticism of the Kabbalah Westcott felt he needed to draw attention to its dogma after his many years of study and translation of the canon and his work with the Rosicrucian Society Also due to the fact that there was still a problem with the opacity and complexity of much of its language and a simplified introduction was still required The work looks at the key texts and concepts of the Kabbalah and is ideal for the absolute beginner or those who seek to refresh their outline of the topic **A Map of the Universe** Rabbi Max Weiman,2003-11-10 A Map of the Universe may be the most important book you ever read It explains in clear language what life is all about from a kabbalistic point of view Rabbi Weimans amiable style and breadth of knowledge make this book a delightful and insightful adventure into the world of Jewish mysticism while leaving your feet firmly planted in the practical world *The Kabbalistic Culture of Eighteenth-Century Prague* Sharon Flatto,2015-09-03 Sharon Flatto s comprehensive study offers the first systematic overview of the eighteenth century Jewish community of Prague and the first critical account of the life and

thought of its pre eminent rabbinic authority Ezekiel Landau Her detailed analysis firmly rooted in the historical and cultural context of the period challenges the conventional portrayal of Landau as a staunch opponent of esoteric practices and reveals the centrality of kabbalistic thought in this key central European city [Occult Roots of Religious Studies](#) Yves Mühlmatter, Helmut Zander, 2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas
