**Organizational Rhetoric** Mary F. Hoffman, Debra J. Ford, 2010. *Organizational Rhetoric* introduces students to a rhetorical approach to understanding, analyzing, and creating organizational messages for both internal employees and external customers. This textbook provides students a theoretically grounded understanding of the basic building blocks of organizational rhetoric: the types of rhetorical situations faced by organizational communicators and the specific strategies used to address six common organizational rhetorical situations, such as image management. Students will gain an understanding of the power of organizations in contemporary society and be able to think critically about organizational messages. The text is organized in two units. In the first unit, authors Mary Hoffman and Debra Ford introduce the rationale for a rhetorical approach to organizational messages and introduce the basic rhetorical building blocks and principles behind the rhetorical situation and the analysis of strategies. In the second unit, the authors cover six specific rhetorical situations commonly faced by organizations: image and identity management, issue management, impression management, risk management, crisis management, and organizational apology and internal message management. Each chapter is structured similarly, in conjunction with the ideas developed in unit one, and each ends with a case study that exemplifies the content presented in that chapter. Features and Benefits: The first unit in the text will introduce the details of analyzing situations and identifying strategies. The second unit will examine six specific recurring rhetorical situations for organizations: Organizational schema centered on situations and strategies; Use of real-life case studies; Focus on careers in organizational rhetoric; Focus on thinking critically about organizations in society.

[Rhetorical Aspects of Discourses in Present-Day Society](#) Lotte Dam, Lise-Lotte Holmgreen, Jeanne Strunck, 2009-05-27 Since antiquity, the notion of rhetoric has been associated with Aristotle, Cicero, and Quintilian. Their theories are central to the understanding that, on the one hand, rhetoric can be used for persuading and convincing an audience, and on the other, for becoming an eloquent speaker. Based on this understanding, the study of rhetoric was for many years regarded by scholars as a meaningless enterprise, as it was perceived as a study of linguistic

ornamentation However in the beginning of the twentieth century scholars regained an interest in the study of rhetoric in recognition of rhetorical skills being important for communication in modern society Like speakers in public life e g politicians who had always acknowledged the role of rhetoric all sorts of communicators mediators and scholars became interested in rhetoric as a practical tool for building up texts meant for the public sphere as well as an analytical tool for the critique of public argumentation This led to the development of new theories from New Rhetoric over Rhetorical Criticism to theories of genre and discourse reflecting the view that rhetoric must be understood and used against the social and cultural framework in which it is embedded The contributions of this book reflect this multi faceted approach to rhetoric discourse and genre through their focus upon and analysis of different institutionalised discourses Thus within the three sections of political journalistic and organisational discourse the articles discuss various discourse types and their rhetorical features contributing to the understanding of rhetoric and discourse having significant influence on human action and interaction in society

Rhetoric in Detail Barbara Johnstone, Christopher Eisenhart, 2008 The eleven studies in this volume illustrate and advance the synthesis of discourse analysis with rhetorical studies Rhetoric in Detail shows how a variety of techniques from discourse analysis can be useful in studying such concerns as agency legitimation controversy and style and how concepts from rhetoric including genre and figuration can enrich the work of discourse analysts The authors research sites range from government commissions political speeches newspaper reports and letters to interviews and conversations in beauty salons and online Methodological overviews interspersed throughout survey critical discourse analysis interactional sociolinguistics grounded theory computer aided corpus analysis narrative analysis and participant observation and provide suggestions for further reading Rhetoric in Detail is an invaluable source for rhetoricians looking for systematic grounded ways of approaching new more vernacular sites for rhetorical discourse and for discourse analysts interested in seeing what they can learn from the tradition and practice of rhetorical analysis

*Stripped* Maggie M. Werner, 2020-10-14 *Stripped* examines the ways in which erotic bodies communicate in performance and as cultural figures Focusing on symbols independent of language Maggie M Werner explores the signs and signals of erotic dance audience responses to these codes and how this exchange creates embodied rhetoric Informed by her own ethnographic research conducted in strip clubs and theaters Werner analyzes the movement dress and cosmetic choices of topless dancers and neo burlesque performers Drawing on critical methods of analysis she develops approaches for interpreting embodied erotic rhetoric and the marginal cultural practices that construct women's public erotic bodies She follows these bodies out into the streets into the protest spaces where sex workers and anti rape activists challenge discourses about morality and victimhood and struggle to remake their own identities Throughout Werner showcases the

voices of these performers and in the analyses shares her experiences as an audience member interviewer and paying customer The result is a uniquely personal and erudite study that advances conversations about women s agency and erotic performance moving beyond the binary that views the erotic body as either oppressed or empowered Theoretically sophisticated and delightfully intimate Stripped is an important contribution to the study of the rhetoric of the body and to rhetorical and performance studies more broadly
