Atmospheric Pollution Mcgraw Hill Problems Series In Geography:

Atmospheric Pollution Wilfrid Bach,1971 This text concentrates on specific air pollution problem areas Chapters are structured to include a descriptive section which introduces the bulk of the information available concerning the specific problem area followed by an explanatory section which discusses possible solutions Work in atmospheric pollution will require specially trained personnel who can respond professionally to the requirements of a problem that spans a wide range of academic disciplines An interdisciplinary approach is used in this book in the hope of creating the kind of cooperative spirit that must be evidenced if any progress is ever going to be made toward finding an overall solution to the air pollution crisis Preface Key Texts in Human Geography Phil Hubbard,Rob Kitchin,Gill Valentine,2008-05-19 A book that will delight students Key Texts in Human Geography is a primer of 26 interpretive essays designed to open up the subject s landmark monographs of the past 50 years to critical interpretation The essays are uniformly excellent and the enthusiasm of the authors for the project shines through It will find itself at the top of a thousand module handouts THE Textbook Guide Will surely become a key text itself Read any chapter and you will want to compare it with another Before you realize an afternoon is gone and then you are tracking down the originals Professor James Sidaway University of Plymouth An essential synopsis of essential readings that every human geographer must read It is highly recommended for those just embarking on their careers as well as those who need a reminder of how and why geography moved from the margins of social thought to its very core Barney Warf Florida State University Undergraduate geography students are often directed to key texts in the literature but find them difficult to read because of their language and argument As a result they fail to get to grips with the subject matter and gravitate towards course textbooks instead Key Texts in Human Geography serves as a primer and companion to the key texts in human geography published over the past 40 years It is not a reader but a volume of 26 interpretive essays highlighting the significance of the text how the book should be read reactions and controversies surrounding the book the book s long term legacy It is an essential reference guide for all students of human geography and provides an invaluable interpretive tool in answering questions about human geography and what constitutes geographical knowledge **Air Quality Assessment and Management** Dr Owen Harrop,2018-09-03 Air Quality Assessment and Management A Practical Guide describes the techniques available for an assessment while detailing the concepts and methodologies involved It reviews the principles of air quality management primary sources of air pollution impact of emissions on human health flora and fauna scoping of air quality impacts baseline monitoring impact prediction impact significance and pollution mitigation and control Emphasis will be placed on the practical side of AQA with numerous international case studies and exercises to aid the reader in their understanding of concepts and applications
