**Sexual Medicine in Clinical Practice** Klaus M. Beier, Kurt K. Loewit, 2012-11-05 Call it a remnant of our Victorian past but sexual concerns lag behind other aspects of health both in the training of physicians and therapists and in the way they impart this knowledge to clients But as sexuality gains recognition as crucial to one's quality of life evidence based methods of understanding and discussing sex are imperative and not only in treating pathology Sexual Medicine in Clinical Practice provides framework rationale and strategies for both approaching sexual problems and addressing patients questions about sexual health behavior and relationships Analyzing sexuality along three dimensions attachment reproduction and desire this concise manual offers a biopsychosocial lifespan model readily translatable into clinical work This syndyastic framework integrates attachment and relational theory to reinforce the bond between intimacy and connectedness and models nonjudgmental approaches to disorders of sexual function maturity preference and behavior The authors salutogenic rather than pathogenic focus lets clients become major players in their own healing and the therapist or doctor serve as expert and guide Among the topics covered The communicative function of sexuality The spectrum of sexual disorders Principles of diagnostics in sexual medicine Disease centered versus client centered aspects of sexual therapy Therapeutic approaches for sexual traumatization New challenges including preventing child sexual abuse and online sex crime Plus case studies interdisciplinary references and ethical issues A timely perspective and practice altering volume Sexual Medicine in Clinical Practice is essential reading for family and primary care physicians family and sex therapists health psychologists and psychiatrists

**Attachment and Sexuality in Clinical Practice** Kate White, 2005 The second book in the John Bowlby Memorial Conference Lecture Series It explores our thinking about the developmental relational and interpersonal aspects of the links between attachment and sexuality as they emerge in clinical practice Contributors Bernice Laschinger Chris Purnell Joanna Ryan Joseph Schwartz Kate White Rachel Wingfield and Judy Yellin

**Attachment and Sexuality in Clinical Practice** Kate White, 2005 The second book in the John Bowlby Memorial Conference Lecture Series It explores our thinking about the developmental relational and interpersonal aspects of the links between attachment and sexuality as they emerge in clinical practice

**The Human as the Other** Matthew Rukgaber, 2025-02-20 Philosophical anthropology investigates what makes us human but it has produced accounts that exclude some members of our species It relies often on non naturalistic philosophies of consciousness that locate humanity in the cognitive capacity to objectively represent things to reason teleologically and use tools to use symbols and language or to be self conscious and question existence This work pursues an alternative thoroughly naturalistic philosophical anthropology by combining Arnold Gehlen's

theory of our behaviorally detached and institutionally structured impulses with Maurice Merleau Ponty's views on intersubjectivity affect sexuality and social institutions. It locates the human within the unique structure of our capacity for feeling which produces an inclusive account of the human as the other or Homo alter. Humans are deeply and thoroughly dependent on affective bodily communicative bonds in which other humans appear as sources of pleasure, communicative meaning, institutional norms, and interpersonal approbation and disapprobation. However, this socio-biological account of the human denies that human nature alone can prescribe the necessary form of institutions such as the home, which is a criticism of any potential political anthropology. A result of this focus on our social and affective natures is a novel account of shame as a response to institutional and interpersonal exclusion. Failing to recognize humanity within our dependency on others and the structure of feeling is a widespread problem in philosophy and society in general that contributes to the social and metaphysical exclusion of disabled persons who might lack certain forms of consciousness and cognition. Reimagining philosophical anthropology as the study of the unique way that human beings are socially present to one another, this work challenges such dehumanization.

*The APSAC Handbook on Child Maltreatment* American Professional Society on the Abuse of Children, 2002 Praise for the First Edition: An important contribution to the field of child protection, the editors have aspired to offer an encyclopedic overview of knowledge about child abuse and neglect. The APSAC Handbook will serve as a reference for both practitioners and researchers in the various disciplines involved in investigation, adjudication, prevention, and treatment of child abuse and neglect. I have already cited several of the chapters in my own writing and I have found the book to be a helpful desk reference. In short, I have no qualms about strongly recommending the book to professionals and graduate students in child maltreatment. Indeed, I have circulated a copy that I purchased to several colleagues who I thought would find it useful.

Contemporary Psychology: A resource of unparalleled thoroughness. The ASPAC Handbook of Child Maltreatment, Second

Edition provides comprehensive interdisciplinary coverage of the causes consequences treatment and prevention of child abuse and neglect The Second Edition includes a thorough update of the original chapters as well as over 630 new references to literature that did not exist when the previous edition was published It also includes new chapters focusing on Munchausen by Proxy Syndrome Child Abuse in the Context of Substance Abuse Child Abuse in the Context of Domestic Violence Child Fatalities Risk Management for Professional Working with Maltreated Children and Adult Survivors Mental Health Services for Children reported to Child Protection Services
