Attitudes Toward Bilingual Education A View From The Border:

Attitudes Toward Bilingual Education Harmon M. Hosch, 1984 Bilingual Education in the 21st Century Ofelia García, 2011-09-09 Bilingual Education in the 21st Century examines languages and bilingualism as individual and societal phenomena presents program types variables and policies in bilingual education and concludes by looking at practices especially pedagogies and assessments This thought provoking work is an ideal textbook for future teachers as well as providing a fresh view of the subject for school administrators and policy makers Provides an overview of bilingual education theories and practices throughout the world Extends traditional conceptions of bilingualism and bilingual education to include global and local concerns in the 21st century Questions assumptions regarding language bilingualism and bilingual education and proposes a new theoretical framework and alternative views of teaching and assessment practices Reviews international bilingual education policies with separate chapters dedicated to US and EU language policy in education Gives reasons why bilingual education is good for all children throughout the world and presents cases of how this is being carried out

Honoring Richard Ruiz and his Work on Language Planning and Bilingual Education Nancy H. Hornberger, 2016-11-21 Richard Ruiz has inspired generations of scholars in language planning and multilingual education with his unique orientations to language as a problem a right and a resource This volume attests to the far reaching impact of his thinking and teaching bringing together a selection of his published and unpublished writings on language planning orientations bilingual and language minority education language threat and endangerment voice and empowerment and even language fun accompanied by contributions from colleagues and former students reflecting and expanding on Ruiz ground breaking work This book will be of great interest to both undergraduate and postgraduate students in language planning and multilingual education Indigenous and minority education as well as to junior and senior researchers in those fields

Under Attack Stephen D. Krashen, 1996 Stephen Krashen takes on the critics of bilingual education providing compelling answers to some persistent questions **Language Conflict in Educational Settings** Yliana V. Rodríguez, Adolfo Elizaincín, 2024-12-31 Language Conflict in Educational Settings International Perspectives delves into the intriguing intersection of contact linguistics and education a topic that has been relatively unexplored until now With contributions from scholars across the globe the book ventures into the realms of conflict linguistics in educational scenarios Language contact often fraught with internal and external conflicts impacts education significantly Drawing on scholarship representative of different locations backgrounds and disciplinary angles the authors present studies of pairs and triads of different language families from across the Americas Africa Asia and Europe ultimately demonstrating how language contact leads to conflict and how the latter eventually affects education processes and outcomes Presenting a diverse set of theoretical perspectives and methodologies it asks to what extent these impacts are detrimental to educational outcomes and more specifically how language conflict can impact education in the form of policy teaching and learning As such it provides

essential insights for educators policymakers and professionals in the fields of education linguistics and cultural studies offering valuable case studies in the under researched field of language conflict It ultimately contributes to the enhancement of education in language contact contexts and fosters a deeper understanding of this critical intersection This book is an invaluable resource for researchers scholars and teacher educators offering insights to help understand such an intricate phenomenon as well as those working across language education linguistics and the sociology of language more broadly

Mexico and the United States Lee Stacy,2002-10 Examines the history and culture of Mexico and its relations with its neighbors to the north and east from the Spanish Conquest to the current presidency of Vicente Fox **Condemned Without a Trial** Stephen D. Krashen,1999 Here is a timely and important book for anyone concerned about the future of bilingual education in America Written by Stephen Krashen the nation s foremost expert on second language acquisition it disproves many of the false assumptions and outright distortions that led to the passage of Proposition 227 in California Now as some of those same arguments proliferate in other states Krashen explains the bases for five of these key beliefs and proves step by step why they are wrong Bilingual education is responsible for the high Hispanic dropout rate In fact studies show reduced and even no difference in dropout rates when background factors are controlled Most immigrants succeeded without bilingual education Krashen argues that many immigrants arrived here having had a de facto bilingual education in their countries of origin and that until the last half of this century economic success was not so strongly dependent on school success The United States is the only nation that has bilingual education There is ample evidence of bilingual programs not only existing but also succeeding in countries like Norway and the Netherlands Bilingual education failed in California The author explores flaws in the methods of various studies and counters with other reasons why bilingual education students may not thrive Including widespread poverty and lack of reading materials The public is against bilingual education This argument propagated by the media proves false when one examines the biased language used in survey after survey In its careful delineation of the real issues **Condemned Without a Trial** gives educators administrators parents and voters the essential understanding and evidence they have heretofore been denied **The State of U.S. Education** Robert Emmet Long,1991 A collection of articles on the state of education in the United States and suggestions for possible reform and greater experimentation leading to a higher standard of performance by students **Bilingualism and Linguistic Conflict in Romance** Rebecca Posner,John N. Chicano Library Resource Center,1989 Borders and Borderlands in Contemporary Culture Aoileann Ní Éigeartaigh,David Getty,2006 It is entirely appropriate that this book should be produced in Dundalk Located on the Northern rim of the Irish Pale this town has straddled a border for centuries Over the past thirty years it has come to be closely identified with violent Republicanism both by the Unionist community in Northern Ireland and by Constitutional Nationalists in the South Against such a hostile background academics attached to the Institute of Technology there have bravely confronted and interrogated these processes which have so blighted the history not only of Dundalk but of places and spaces throughout the world similarly located In a wide ranging series of articles perhaps the strongest message to emerge is that of border as limitation The notion of border as a liminal space where worlds converge new realities emerge and transcendence is possible rarely surfaces Instead the border as a physical manifestation of divisiveness is repeatedly explored In a passionate statement of solidarity with the Palestinians Lavalette describes the construction of the apartheid wall oeThe wall is eight feet high and has a watchtower every three hundred metres Although there are no maps it is thought it could end up being close to one thousand kilometres in length by the time it is completed p 18 Yndigeñ shows how spatial borders gradually become mental borders such that as visual borders disappear new invisible borders appear p 33 The article explores the dualism of borders simultaneously protecting those inside from external threats while also preventing those inside from reaching or engaging with the outside world Ni Eigearthaigh takes up the duality theme in the exploration of individualism as a process either of liberation or one of alienation Taking the title from an aphorism of Kafka TM s oeMy Prison Cell My Fortress she explores a view of contemporary society as repressive and of its inhabitants as complicit in the repression Drawing on a wide span of literature and disciplines she teases through the paradox of contemporary society that the freedom gained from the liberation of the individual from communal obligations and repression has resulted in a loss of identity and an overwhelming sense of isolation and powerlessness She concludes that in the absence of a restrictive system of social control the individual is forced to take responsibility for his own actions It is to avoid this responsibility that many choose the security of the prison cell above the hardship of the outside world Her paper does not go on to look at the potential role of the State or of fundamentalist movements in playing on the fear and disconnectedness of the citizenry as an equally likely outcome to that of a stronger capability for personal responsibility One could argue for instance that the

European Fascist movement and the Nationalist movement of the early to mid twentieth century were both based precisely on the dislocation at personal and social level resulting from the breakdown of pre industrial communitarian ties While there is no attempt in the book to elucidate any particular developmental relationship between the different contributors two broad themes may be detected a concern with borders as socio political and geographical constructs on the one hand and a concern with the formation of identity in the individual TM s relationship to the wider society on the other Some light is cast on the latter issue by de Gregorio Godeo who posits discourse as a core concept in identity formation This leads to the conclusion that individual identity in this case individualism is in fact socially constructed in a oediallectical interplay between the discursive and the social identities included so that they are mutually shaped by each other p 93 Using critical discourse analysis he goes on to explore changing notions of masculinity as evidenced in the Health sections of men TM s magazines
