## **Attributing Authorship An Introduction:**

**Attributing Authorship** Harold Love, 2002-06-20 Recent literary scholarship has seen a shift of interest away from questions of attribution Yet these questions remain urgent and important for any historical study of writing and have been given a powerful new impetus by advances in statistical studies of language and the coming on line of large databases of texts in machine searchable form The present book is the first comprehensive survey of the field from a literary perspective to appear for forty years It covers both traditional and computer based approaches to attribution and evaluates each in respect of their potentialities and limitations It revisits a number of famous controversies including those concerning the authorship of the Homeric poems books from the Old and New Testaments and the plays of Shakespeare Written with wit as well as erudition *Attributing Authorship* will make this intriguing field accessible for students and scholars alike *Gen AI, Authorship and the Law* Mira Moldauer, 2026-02-03 This book interrogates the legal and cultural dimensions of persona authorship particularly in the context of publicity rights and the growing regulatory response to generative artificial intelligence Gen AI In an era of rapid technological advancement and evolving legal frameworks this book provides a groundbreaking analysis of the intersections between text authorship and vocabulary Through an innovative application of the if value then right IVTR principle the book deconstructs the shifting foundations of authorship in Western legal thought It examines the persona as a cultural text unrecognized by copyright law the hybrid nature of publicity rights authorship and the influence of postmodern vocabulary on legal adjudication Crucially it critically engages with the exclusion of Gen AI from authorship highlighting how legal doctrine rather than objective artistic neutrality determines creative legitimacy Bridging copyright and trademark law this book argues for a re evaluation of the balance between persona authorship and cultural control offering a compelling framework for understanding the future of intellectual property in the digital age It challenges conventional narratives and proposes new pathways for navigating authorship in a technologically mediated world The book will be of interest to anyone interested in the evolution of intellectual property law the intersection between law and culture and the impact of law and culture on the unique dilemmas posed by artificial intelligence **Defining Shakespeare** MacDonald Pairman Jackson, 2003 That very great play *Pericles* as T S Eliot called it poses formidable problems of text and authorship The first of the Late Romances it was ascribed to Shakespeare when printed in a quarto of 1609 but was not included in the First Folio 1623 collection of his plays This book examines rival theories about the quarto's origins and offers compelling evidence that *Pericles* is the product of collaboration between Shakespeare and the minor dramatist George Wilkins who was responsible for the first two acts and for portions of the brothel scenes in Act 4 *Pericles* serves as a test case for methodologies that seek to define the limits of the Shakespeare canon and to identify co authors A wide range of metrical lexical and other data is analysed Computerized stylometric texts are explained and their findings assessed A concluding chapter introduces a new technique that has the potential to answer many of the remaining questions of attribution

associated with Shakespeare and his contemporaries

**Remembering Boethius** Elizabeth Elliott,2016-03-23

**Remembering Boethius** explores the rich intersection between the reception of Boethius and the literary construction of aristocratic identity focusing on a body of late medieval vernacular literature that draws on the *Consolation of Philosophy* to represent and reimagine contemporary experiences of exile and imprisonment Elizabeth Elliott presents new interpretations of English French and Scottish texts including Machaut's *Confort d'ami Remede de Fortune* and *Fonteinne amoureuse* Jean Froissart's *Prison amoureuse* Thomas Usk's *Testament of Love* and *The Kingis Quair* reading these texts as sources contributing to the development of the reader's moral character These writers evoke Boethius in order to articulate and shape personal identities for public consumption and Elliott's careful examination demonstrates that these texts often write not one life but two depicting the relationship between poet and aristocratic patron These works associate the reception of wisdom with the cultivation of memory and in turn illuminate the contemporary reception of the *Consolation* as a text that itself focuses on memory and describes a visionary process of education that takes place within Boethius's own mind In asking how and why writers remember Boethius in the Middle Ages this book sheds new light on how medieval people imagined and reimagined themselves

Dennis,2006 *Literary Research Guide* James L. Harner,2008 James L Harner s *Literary Research Guide* which Choice calls the standard guide in the field evaluates important reference materials in English studies Since the publication of the first edition in 1989 tens of thousands of students and educators have used the Guide as an aid to scholarly research In the new edition Harner has added entries describing resources published since May 2001 and has revised nearly half the entries from the fourth edition The fifth edition contains more than 1 000 entries which discuss an additional 1 555 books articles and electronic resources and cite 723 reviews Readers of earlier editions will notice the inclusion of substantially more electronic resources particularly reliable sites sponsored by academic institutions and learned societies to account for the proliferation of bibliographic databases text archives and other online resources This edition also features a new section on cultural studies *Kabbalistic Manuscripts and Textual Theory* Daniel Abrams,2010 *Kabbalistic Manuscripts and Textual Theory* uncovers the unstated assumptions and expectations of scribes and scholars who fashioned editions from manuscripts of Jewish mystical literature This study offers a theory of kabbalistic textuality in which the material book the printed page no less than handwritten manuscripts serves as the site for textual dialogue between Jewish mystics of different periods and locations The refashioning of the text through the process of reading and commenting that takes place on the page in the margins and between the lines blurs the boundaries between the traditionally defined roles of author reader commentator and editor This study shows that kabbalists and academic editors reinvented the text in their own image as part of a fluid textual process that was nothing short of transformative This book is certainly monumental offering in its seven hundred pages a wealth of documentation and distilled argument that manages to be both comprehensive in its materials and transparent in its critical insights It is rare indeed that a work of such formidable scholarship can actually be a pleasure to read and convincing in its elucidation of what are often extremely complex documentary circumstances and editorial traditions From the foreword by David Greetham [The Huntington Library Quarterly](#) Henry E. T S Eliot's *The Waste Land* just as it recalls Manet's paintings which provocatively assert artistic status by drawing attention to their flatness. The mosaic-like structure of *The Picture of Dorian Gray* is akin to that of other anti-individualist masterpieces notably Goethe's *Faust* and D M Thomas's *The White Hotel*. The extent of sophisticated plagiarism in the canonical works and the impressive list of its apologists from Ackroyd to Zola indicate the need for new models of authorship and intellectual property models that would benefit scholarly and artistic creativity and solve the paradox of plagiarism as simultaneously one of the most serious and most common of literary crimes.
