Unit 2 - Overview of Audit s Assurance Services

Public Company Accounting Oversight Board: Framework for Audits of Public Companies

- **AS 2201:** An audit of internal control over financial reporting that is integrated with an audit of financial statements
- **AS 3101:** The auditor's report of an audit of financial statements when the auditor expresses unqualified opinion

Auditing Standards Board: Framework for Audits of Private Companies

- **AU-C 200:** Overall objectives of the independent auditor and the conduct of an audit in accordance with Generally Accepted Auditing Standards (GAAS)
- **AU-C 700:** Forming an opinion and reporting on financial statements

Assurance, Attestation s Auditing: Common processes of an independent accounting firm taking information prepared by someone else and comparing that information to an established set of criteria.

- Audit Services enhance the degree of confidence that intended users (usually investors/creditors) can place in the financial statements.

2 Primary Types of Auditing Services:

1. **Audits of Financial Statements (FS):** Historical financial statement audits provide FS users with an opinion by an independent auditor that the FS are prepared in accordance with the applicable framework and are free of material misstatements.
 - a. *Applicable Financial Reporting Framework:* Refers to set of standards used in preparing the historical FS such as GAAP in the United States, the International Financial Reporting Standards (IFRS), or the federal income tax basis of accounting.
2. **Audits of Internal Controls over Financial Reporting (ICFR):** ICFR audits provide FS users with an opinion by the auditor on the design and operating effectiveness of ICFR.

Attestation Services: Performed when an independent practitioner, or CPA, is engaged to issue a report on subject matter that is the responsibility of another party. The term *practitioner* is used rather than Auditor because attestation services encompass more than just the audit of historical financial statements and internal controls.

Financial Statement Review (FSR):

1. **Limited Assurance (FSR) -** When a practitioner expresses that no material modifications need to be made to the financial statements. Often completed for small/private companies who do not need or want an extensive audit that provides *reasonable assurance*.
