Augustine To Freud:

Freud and Augustine in Dialogue William B. Parsons, 2013-11-15 It is arguably the case writes William Parsons that no two figures have had more influence on the course of Western introspective thought than Freud and Augustine Yet it is commonly assumed that Freud and Augustine would have nothing to say to each other with regard to spirituality or mysticism given the former's alleged antipathy to religion and the latter's not usually being considered a mystic Adopting an interdisciplinary dialogical and transformational framework for interpreting Augustine's spiritual journey in his Confessions Parsons places a mystical theology at the heart of Augustine's narrative and argues that his mysticism has been misunderstood partly because of the limited nature of the psychological models applied to it At the same time he expands Freud's therapeutic legacy to incorporate the contemporary findings of physiology and neuroscience that have been influenced in part by modern spirituality Parsons develops a new psychological hermeneutic to account for Augustine's mysticism that will capture the imagination of contemporary readers who are both psychologically informed and interested in spirituality The author intends this interpretive model not only to engage modern introspective concerns about developmental conflict and the power of the unconscious but also to reach a more nuanced level of insight into the origins and the nature of the self

Recollections and Reconsiderations Margaret R. Pride in Freud and Augustine, Psychotherapy as an Art of Grace Mark Christopher Yates, 2010 Pride is an unconscious disposition that disrupts relationships by twisting love Worldviews are attempts to deal with human suffering and are rooted in universal myths of fault Integration of psychology and theology at the level of worldviews can fail to deal with suffering when they do not take into account unconscious pride This work discusses Freud s use of the Oedipus myth and Augustine s use of the myth of the Fall in order to situate the psychotherapeutic relationship in a dialogue about pride which relates to the distortion of love I then suggest that psychotherapy can be an art of grace that facilitates the healing of pride and helps people love in two ways acknowledging unconscious pride and faith as an essential quality that helps deal with pride The last chapter discusses implications for the therapeutic relationship
