Duggan,2013 The history of the vexed relationship between clergy and warfare is traced through a careful examination of canon law In the first millennium the Christian Church forbade its clergy from bearing arms In the mid eleventh century the ban was reiterated many times at the highest levels all participants in the battle of Hastings for example who had drawn blood were required to do public penance Yet over the next two hundred years the canon law of the Latin Church changed significantly the pope and bishops came to authorize and direct wars military religious orders beginning with the Templars emerged to defend the faithful and the Faith and individual clerics were allowed to bear arms for defensive purposes This study examines how these changes developed ranging widely across Europe and taking the story right up to the present day it also considers the reasons why the original prohibition has never been restored Lawrence G Duggan is Professor of History at the University of Delaware and research fellow of the Alexander von Humboldt Foundation      **The Libraries of the Augustinian Canons** Teresa Webber,Andrew G. Watson,1998 This is a compilation of medieval book lists and catalogues from 34 houses of Augustinian canons The volume also contains the most substantial of all surviving records of an English medieval library the late 15th century catalogue of Leicester Abbey which records the contents of over 900 books This catalogue bears witness to the intellectual pastoral and devotional interests of a late medieval religious community      **The Liturgy in Medieval England** Richard W. Pfaff,2009-09-24 This book provides a comprehensive historical treatment of the Latin liturgy in medieval England Richard Pfaff constructs a history of the worship carried out in churches cathedral monastic or parish primarily through the surviving manuscripts of service books and sets this within the context of the wider political ecclesiastical and cultural history of the period The main focus is on the mass and daily office treated both chronologically and by type the liturgies of each religious order and each secular use being studied individually Furthermore hagiographical and historiographical themes respectively which saints are prominent in a given witness and how the labors of scholars over the last century and a half have both furthered and in some cases impeded our understandings are explored throughout The book thus provides both a narrative account and a reference tool of permanent value      **Transactions of**

Meade,2017-10-26 The Bible took shape over the course of centuries and today Christian groups continue to disagree over details of its contents The differences among these groups typically involve the Old Testament as they mostly accept the same 27 book New Testament An essential avenue for understanding the development of the Bible are the many early lists of canonical books drawn up by Christians and occasionally Jews Despite the importance of these early lists of books they have remained relatively inaccessible This comprehensive volume redresses this unfortunate situation by presenting the early Christian canon lists all together in a single volume The canon lists in most cases unambiguously report what the compilers of the lists considered to belong to the biblical canon For this reason they bear an undeniable importance in the history of the Bible The Biblical Canon Lists from Early Christianity provides an accessible presentation of these early canon lists With a focus on the first four centuries the volume supplies the full text of the canon lists in English translation alongside the original text usually Greek or Latin occasionally Hebrew or Syriac Edmon L Gallagher and John D Meade orient readers to each list with brief introductions and helpful notes and they point readers to the most significant scholarly discussions The book begins with a substantial overview of the history of the biblical canon and an entire chapter is devoted to the evidence of biblical manuscripts from the first millennium This authoritative work is an indispensable guide for students and scholars of biblical studies and church history     **The Publications of the Thoresby Society** Thoresby Society,1924     *Transactions of the Royal Historical Society* ,1927     **History of the Catholic Church** Thomas Patrick Neill,Raymond Henry Schmandt,1957     *The Cambridge Medieval History* Henry Melvill Gwatkin,James Ponder Whitney,1929
