## **Character Development And Physical Activity:**

**Character Development and Physical Activity** David Lyle Shields, Brenda Jo Bredemeier, 1995 Examines character development and moral action in sport and physical activity contexts This book presents an understanding of what promotes or deters moral behaviour in sport and offers recommendations for encouraging character growth through physical education

The Journal of Health and Physical Education ,1933      **The Journal of Physical Education** Luther Halsey Gulick, George John Fisher, Martin Isaac Foss, John Brown, Harold T. Frierhood, 1927      **Journal of Health, Physical Education, Recreation** ,1931      **Character Development Through Physical Education** Daniel Farrant, 2013 Character traits such as morality self esteem self efficacy and resilience have been associated with desirable life outcomes including lower levels of stress experiencing positive growth after stressful periods fewer alcohol and drug related problems academic achievement being willing to set challenging life goals and pro social behaviour Backer Fulghum Patock Peckham King Roufa Bandura Barbaranelli Caprara Dolbier Jaggars Passini 2012 Vieira Grantham 2011 It is natural therefore that attempts are made to promote these positive character qualities in young people While well structured and implemented programmes and interventions may positively influence elements of character research in the area of physical education and character development remains scarce The purpose of this study was to determine if a curriculum based physical education approach could influence elements of character in primary school children The programme being investigated used a mastery based approach and utilised game play in combination with class presentations discussions and exercises Using a quasi experimental design participants from three programme schools n 86 and one control school n 84 completed a questionnaire before the programme was implemented and after approximately 12 weeks of programme exposure The questionnaire assessed participants moral character self efficacy self esteem resilience and their perceived ability and enjoyment in sport and physical activity When comparing the programme and control groups and when comparing those who received zero two or four hours of the programme a week we found no evidence that this approach to physical education had any impact on the measures administered However interaction analyses suggested that on some measures the programme had a different impact on participants depending on their baseline scores Significant interaction effects included reductions in self efficacy for formerly high scoring programme participants if they were exposed to the programme for four hours per week and increases in general self esteem and enjoyment of sport and physical activity for initially low scoring programme participants While the self efficacy finding was not endorsed by programme teachers short answer feedback the self esteem and enjoyment of physical activity results were Some teachers noted improvements in some participants self esteem confidence leadership and enjoyment of physical education All programme teachers reported finding this curriculum based physical education approach useful and said they would use it in future Some measures suffered from poor reliability and findings are considered in light of this Findings are discussed in relation to theory and previous research research and programme

strengths and limitations are outlined and suggestions are made for future directions in this area *The Literature of American School and College Athletics* Will Carson Ryan,1929 **Coaching Values and Life Skills through Physical Education and Sports** Koon Teck Koh,Tarkington J Newman,Muhammad Shufi Bin Salleh,2024-11-08 This impactful resource guide is for international educators and practitioners involved in Physical Education and Sport PES who want to learn evidence based approaches to the teaching of values and character education Through a systematic approach to teaching and evaluating values and character education this book bridges the gap between theory and practice It offers empirical evidence and strategies to show how values and character can be internalized through carefully designed experiences active participation and regular reinforcement without compromising the time needed to learn sports skills a common concern raised by PE teachers and sports coaches Results from case studies have also revealed that values can be transferred beyond the context of physical education lessons and sports through a collaborative approach and effective communication between teachers coaches and parents Key strategies based on empirical evidence are highlighted in this book It also highlights an Asian perspective on values and life skills training through Physical Education and provides readers with step by step implementation guidelines to simplify some complex strategies in developing values and life skills through PES seamlessly The book provides useful information to anyone engaged in developing young people in and through sport In particular it will be of great value to pre service and in service teachers and coaches for implementing effective strategies to balance teaching sports skills values and life skills effectively in PES **Bulletin** Carnegie Foundation for the Advancement of Teaching,1929 [The University of Michigan School of Education Bulletin](#) University of Michigan.
