Loisaida as Urban Laboratory Timo Schrader, 2020-11-15 *Loisaida as Urban Laboratory* is the first in depth analysis of the network of Puerto Rican community activism in New York City s Lower East Side from 1964 to 2001 Combining social history cultural history Latino studies ethnic studies studies of social movements and urban studies Timo Schrader uncovers the radical history of the Lower East Side As little scholarship exists on the roles of institutions and groups in twentieth and twenty first century Puerto Rican community activism Schrader enriches a growing discussion around alternative urbanisms

Loisaida was among a growing number of neighborhoods that pioneered a new form of urban living. The term Loisaida was coined and then widely adopted by the activist and poet Bittman Bimbo Rivas in an unpublished 1974 poem called Loisaida to refer to a part of the Lower East Side. Using this Spanglish version instead of other common labels honors the name that the residents chose themselves to counter real estate developers who called the area East Village or Alphabet City in an attempt to attract more artists and ultimately gentrify the neighborhood. Since the 1980s urban planners and scholars have discussed strategies of urban development that revisit the pre World War II idea of neighborhoods as community driven and ecologically conscious entities. These new urbanist ideals are reflected in Schrader's rich historical and ethnographic study of activism in Loisaida, telling a vivid story of the Puerto Rican community's struggles for the right to stay and live with dignity in its home neighborhood.

Counter Institution Nandini Bagchee, 2018-07-10

In the midst of current debates about the accessibility of public spaces resurfacing as a result of highly visible demonstrations and occupations, this book illuminates an overlooked domain of civic participation: the office workshop or building where activist groups meet to organize and plan acts of political dissent and collective participation. Author Nandini Bagchee examines three repurposed buildings on the Lower East Side that have been used by activists to launch actions over the past forty years. The Peace Pentagon was the headquarters of the anti-war movement. El Bohio was a metaphoric hut that envisioned the Puerto Rican Community as a steward of the environment. ABC No Rio, appropriated from a storefront sign with missing letters, was a catchy punk name that appealed to the anarchistic sensibility of the artists that ran a storefront gallery in a run-down tenement. In a captivating discussion of buildings and urban settings as important components of progressive struggles in New York City over more than a century, Bagchee reveals how these collectively organized spaces have provided a venue for political participation while existing as a vital part of the city's civic infrastructure. The counter institution explored in this book represents both a conceptual and a literal struggle to create a space for civic action in a city that is built upon real estate speculation. The author reveals the fascinating tension between the impermanence of the insurgent activist practices and the permanent but maintenance-heavy aspects of architecture. The actors she vividly describes—the war resisters, the Puerto Rican organizers, the housing activists, the punks, and artists—all seized the opportunity to create what are seen as activist estates at a time and in a place where urban life itself was under attack. And now, when many such self-organized activist buildings are imperiled by the finance-driven real estate market that is New York City, this book takes stock and provides visibility to these under-recognized citizens' initiatives. Counter Institution is an innovative work that intersects architecture, urban design, practices, and geography, cartography on the one hand with history, politics, and sociology on the other. It is a must-read for anyone interested in the history of activism in New York City and how the city can inspire and encourage political engagement. Through its beautifully illustrated pages, where drawings, maps, timelines, and photographs underline the connections between people, politics, and space, readers will discover new ways to imagine buildings as a critical part of the

civic infrastructure and a vital resource for the future A People's Guide to New York City Carolina Bank Muñoz, Penny Lewis, Emily Tumpson Molina, 2022-01-25 This alternative guidebook for one of the world's most popular tourist destinations explores all five boroughs to reveal a people's New York City. The sites and stories of A People's Guide to New York City shift our perception of what defines New York, placing the passion, determination, defeats, and victories of its people at the core. Delving into the histories of New York's five boroughs, you will encounter enslaved Africans in revolt, women marching for equality, workers on strike, musicians and performers claiming streets for their art, and neighbors organizing against landfills and industrial toxins and in support of affordable housing and public schools. The streetscapes that emerge from these groups' struggles bear the traces, and this book shows you where to look to find them. New York City is a preeminent global city, serving as the headquarters for hundreds of multinational firms and a world-renowned cultural hub for fashion, art, and music. It is among the most multicultural cities in the world and also one of the most segregated cities in the United States. The people that make this global city function: immigrants, people of color, and the working classes reside largely in the so-called outer boroughs, outside the corporations, neon, and skyscrapers of Manhattan. A People's Guide to New York City expands the scope and scale of traditional guidebooks, providing an equitable exploration of the diverse communities throughout the city. Through the stories of over 150 sites across the Bronx, Manhattan, Queens, Brooklyn, and Staten Island, as well as thematic tours and contemporary and archival photographs, a people's New York emerges, one in which collective struggles for justice and freedom have shaped the very landscape of the city. Ferrocement Stanley Abercrombie, 1977 Best Sellers, 1974

The Publishers Weekly, 1974 **Civil Rights** Joan Martin Burke, 1974 **Buckminster Fuller** Richard Buckminster Fuller, 2008 From his geodesic dome to books popularizing the terms spaceship earth and synergetics, the life mission of R. Buckminster Fuller (1895-1983) was to create living environments that minimized consumption of the earth's resources while maximizing interconnections with global systems of information and transportation. This book explores Fuller's extraordinary body of work, focusing on his wide-ranging and sometimes controversial role within the worlds of art, architecture, and utopian thought. The book chronicles Fuller's profound, often prophetic contributions, including his environmentally sensitive building designs. The essays illuminate the underappreciated thematic interactions of many sculptors, painters, musicians, and architects with this self-described comprehensive anticipatory design scientist, including contemporary artists wrestling with Fuller's legacy today. Reproductions of original drawings and models, including those for Fuller's 4D house, Wichita House, the Montreal Expo dome, and the sole extant Dymaxion car, plus a reprinted 1966 *New Yorker* profile on Fuller by Calvin Tompkins, complete the fascinating tribute. **Recent Writings on the History of American Higher Education, Published 1974-1981** Dale E. Casper, 1983 Public Administration Series--Bibliography, 1986-03 **The Struggle for Eden** Malve von Hassell, 2002-01-30 Writing at a time when the further destruction of community gardens had been legally forbidden but the city council was voting to continue replacing them with development, Hassell's behavioral sciences in Suffolk County

Community College New York presents one perspective on the history and current status of urban community gardens on the Lower East Side of New York City He concentrates on the last two decades of the 20th century Annotation copyrighted by Book News Inc Portland OR *Catalogue* J.B.
