Chariots of the Gods? Erich von Däniken, 1970 Presents the theory that earth has been visited by extraterrestrial beings

The Gods Never Left Us Erich von Däniken, 2017-11-20 The Long Awaited Sequel to the Worldwide Best seller Chariots of the Gods When Chariots of the Gods was published 50 years ago it began a worldwide change in humanity's view of the cosmos In an era of the military space race Erich von Däniken boldly proclaimed that Earth had been visited by more advanced beings early in our history But prescientific man had no concept of space ships so he called their vehicles chariots and those driving the chariots became gods Over the next five decades von Däniken's more than 40 books built an ever stronger case for Earth being visited by extraterrestrial visitors And Chariots became an international best seller with 30 million copies sold in more than two dozen languages Also during that time the case for ET visitations millennia ago was being reexamined by contemporary UFO researchers who found evidence of modern visitations And von Däniken expanded his perspective to encompass the present Now he presents his long awaited sequel to Chariots of the Gods proclaiming that the gods never left us with all new material to show that ancient aliens are still with us The Gods Never Left Us contends that recent advancements in biotechnology astrophysics engineering and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it We are as a race embarking on the exact same trajectory of our own interplanetary colonization just as von Däniken suggested Earth itself was colonized ETs are definitely at work today And that affects all of us Why do they do what they do What could an extraterrestrial species possibly gain from observing us in the same way we look at ants What have these strangers wanted for the past thousands of years Can't they leave us alone And what makes it so difficult for us to acknowledge the existence of these extraterrestrials That is what this book deals with Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research As always he adds his own to the point take on it all Readers may also like that his newest work moves

in a slightly different direction from his past books A thoroughly enlightening and enjoyable Read Bruce Cunningham

Däniken,2023-07-03 Bestselling author Erich von D niken explores the evidence of ancient visitors treated as gods in
religious scripture and mythology His findings shake the foundations of both science and faith Why do nearly all the world s
major religions share similar myths and legends Whether it s the Old Testament ancient legends or the creation myths of
New Zealand s natives you come across similar stories everywhere Erich von D niken author of the international bestseller
Chariots of the Gods believes he knows the answer and it is as wondrous and awe inspiring as it is controversial The winged
angels populating the Bible the Koran and other religious texts from cultures the world over were in reality extraterrestrials
who visited the Earth in ages long past Who were the gods of ancient lore How can the contradictions in the Bible be
explained Why are the pagodas of Myanmar formerly Burma so amazingly similar to space capable rockets Erich von D niken
provides convincing new and surprising interpretations and answers that fundamentally contradict both the teachings of
religion and current science His astonishing conclusion The gods were not metaphysical beings that humans created in their
imagination but extraterrestrial intelligences that have left their traces all over the Earth He offers persuasive evidence that
actual living beings inspired the legends that became the basis for many of our religious traditions *Signs of the Gods?*
Erich Von Däniken,2011-06-15 Were human beings created by powers from outer space Did extraterrestrial giants build the
megaliths of Malta and the menhirs of Brittany Was the Ark of the Covenant a machine built by the astronaut gods In Signs of
the Gods Erich von D niken travels far and wide around the globe to study the many strange phenomena that all point to one
conclusion that many thousands of years ago Earth was visited by a race of superhuman powers and intelligence The
questions he addresses along the way include Why are the religious sites in Greece all laid out in the same geometrical
pattern a pattern which is repeated throughout the world Does the extraordinary longevity of the ancient Sumerian kings
mean that the Land of the Two Rivers was ruled by a race of supermen Could the first men have been produced by cloning Do
the great ruins of Zimbabwe point to an impossibly detailed knowledge of astronomy Erich von D niken s Chariots of the
Gods provoked a worldwide storm of controversy In Signs of the Gods he produces powerful arguments to support his theory
of astronaut gods with evidence that is difficult to explain any other way Hear what he has to say with an open mind and you

Evidence of the Gods Erich von Däniken,2012-11-22 Ancient humans had the natural urge to document the world in which they lived a fact that is evident in the cave paintings and carvings that still exist today Why do rock paintings from various sites around the world all seem to depict the same things Did the peoples of the prehistoric world have contact with each another Is it possible that some were transported to far flung locations in what our ancestors could only have described as flying chariots Erich von D niken one of the best selling authors of all time and regarded by many as the father of the ancient alien theory continues his mission to uncover Earth s ancient past this time with more than 150 extraordinary full color photographs in Evidence of the Gods This extensively illustrated book features never before seen photographs from his unique archive compiled throughout decades of searching around the world for traces of the cosmic gods whom he believes came to Earth thousands of years ago Evidence of the Gods offers the best and most impressive evidence to date along with concise explanations for the images to bolster the case that von D niken has already been making quite convincingly for years Evidence of the Gods is his most convincing and thoroughly entertaining work yet Did extraterrestrial visitors really leave their unmistakable traces on our planet thousands of years ago The images will speak for themselves
