Oliver Bradbury,2017-07-05 Sir John Soane s Influence on Architecture from 1791 A Continuing Legacy is the first in depth
study of this eighteenth century British architect s impact on the work of others extending globally and still indeed the case
over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753 1837 has
persevered through the centuries rather than waning around the time of his death Through examinations of internationally
renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean
disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on
architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return
to pure revivalism Previous investigations have been limited to focusing on Soane s late Georgian and then post modern
influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury
demonstrates that Soane s influence has been truly international in the pre modern era reaching throughout the British Isles
and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury
contends that Soane s is a continuing not negated legacy in architecture The Domestic Architecture of the Early
