Voysey, 2011 Charles Francis Annesley Voysey could easily have made a career out of pattern design alone so celebrated were his ingenious textiles and wall coverings By the mid 1890s however he also was hailed as one of Britain's most innovative architects For the small country houses that were his specialty he rejected the lavish ornamentation and historical trappings so beloved by the Victorians relying instead on simple expressive forms and materials Voysey's versatility was astonishing encompassing all manner of furniture cabinetry fixtures and floor and wall coverings From the shape of a clothes hook to the sweep of a roofline every form he created was informed by a strong and unorthodox spiritual philosophy that often set Voysey at odds with other designers even as he rose to become a leading force His wallpapers and textiles in particular reveal Voysey's complex personality his lifelong love of England's flora and fauna his belief that a reverent observation of the natural world might hasten humanity's spiritual evolution and his unusually whimsical and occasionally wicked sense of humour Today his images are as beloved as they were then In *C F A Voysey Architect Designer Individualist* Anne Stewart O'Donnell traces this extraordinary creative output while painting a vivid picture of Voysey's character *CFA Voysey* Stuart Durant, Charles F.
