Charles Kenneth Leith Sylvia Wallace McGrath, **Charles Kenneth Leith** Sylvia Wallace McGrath,1971 **Charles Kenneth Leith, Scientific Adviser** Sylvia Freeman Wallace,1966 **Environmental Histories of the First World War** Richard P. Tucker,Tait Keller,J. R. McNeill,Martin Schmid,2018-08-23 This anthology surveys the ecological impacts of the First World War Editors Richard P Tucker Tait Keller J R McNeill and Martin Schmidt bring together a list of experienced authors who explore the global interactions of states armies civilians and the environment during the war They show how the First World War ushered in enormous environmental changes including the devastation of rural and urban environments the consumption of strategic natural resources such as metals and petroleum the impact of war on urban industry and the disruption of agricultural landscapes leading to widespread famine Taking a global perspective *Environmental Histories of the First World War* presents the ecological consequences of the vast destructive power of the new weaponry and the close collaboration between militaries and civilian governments taking place during this time showing how this war set trends for the rest of the century *Biographies of Scientists* Roger Smith,1998 Identifies over 500 sources of information about the lives of scientists for young and adult general readers and for scholars Entries ranging from a quarter to a half page in length explain briefly what the subjects achieved worthy of biography as well as describing the work in some detail The works cited include books encyclopedias and periodicals and both biography and autobiography The arrangement is by discipline the social sciences are not included with indexes by author and subject scientist Annotation copyrighted by Book News Inc Portland OR *Minerals, Lands, and Geology for the Common Defence and General Welfare: 1904-1939* Mary C. Rabbitt,1979 **Planning War, Pursuing Peace** Paul A. C. Koistinen,1998 The third volume in a magisterial five volume study of the political economy of American warfare *Nature at War* Thomas Robertson,Richard P. Tucker,Nicholas B. Breyfogle,Peter Mansoor,2020-04-02 World War II was the largest and most destructive conflict in human history It was an existential struggle that pitted irreconcilable political systems and ideologies against one another across the globe in a decade of violence unlike any other There is little doubt today that the United States had to engage in the fighting especially after the Japanese attack on Pearl Harbor on December 7 1941 The conflict was in the words of historians Allan Millett and Williamson Murray a war to be won As the world s largest industrial power the United States put forth a supreme effort to produce the weapons munitions and military formations essential to achieving victory When the war finally ended the finale signaled by atomic mushroom clouds over Hiroshima and Nagasaki upwards of 60 million people had perished in the inferno Of course the human toll represented only part of the devastation global environments also suffered greatly The growth and devastation of the Second World War significantly changed American landscapes as well The war created or significantly expanded a number of industries put land to new uses spurred urbanization and left a legacy of pollution that would in time create a new term Superfund site **The University of Wisconsin** E. David Cronon,John W. Jenkins,1994-10-31 This third

volume of the history of the University of Wisconsin Politics Depression and War 1925 1945 continues the history of the famous institution that has become today's University of Wisconsin Madison It carries the story forward from 1925 to the end of World War II as the University was planning for the post war influx of returning veterans Volumes I and II by Professors Merle Curti and Vernon Carstensen were published in 1949 as part of the University's centennial celebration In Volume III E David Cronon and John W Jenkins provide a lively and readable account of the significant political social and educational transformations between 1925 and 1945 emphasizing the effect of Wisconsin's partisan politics on the University the growth of the faculty's role in institutional governance the development of close knit faculty and student communities and the ways in which the University maintained and even enhanced its scholarly reputation in a difficult era of history The authors also look at the expansion of University outreach activities especially the development of a major instructional center in Milwaukee later to become the University of Wisconsin Milwaukee extension centers throughout the state and the new medium of educational broadcasting through the university station WHA considered the oldest station in the nation Read alone or in conjunction with the first two volumes this is a thorough and absorbing history for anyone interested in this remarkable institution Current faculty alumni students and Wisconsin residents will find here a wealth of information enhanced by many historical photographs An engaging additional feature are the cartoons caricatures and sketches from student publications that reveal a student perspective on the people and events of the period

American National Biography, 1999 **Lawrence Alumnus**, 1926 Recollections of a Petrologist Joseph Paxson Iddings, 2015 Joseph Paxson Iddings 1857 1920 was a central participant in the rise of theoretical petrology His scientific autobiography Recollections of a Petrologist recounts virtually all of his petrological exploits as well as the ideas and contributions of many of his contemporaries
