Charles Olson, the Critical Reception, 1941-1983 William McPherson, 1986 **Historical Dictionary of the Beat Movement** Paul Varner, 2012-06-21 The Beat Movement was one of the most radical and innovative literary and arts movements of the 20th century and the history of the Beat Movement is still being written in the early years of the 21st century Unlike other kinds of literary and artistic movements the Beat Movement is self-perpetuating After the 1950s generation headlined by Jack Kerouac Allen Ginsberg and William S Burroughs a new generation arose in the 1960s led by writers such as Diane Wakoski Anne Waldman and poets from the East Side Scene In the 1970s and 1980s writers from the Poetry Project at St Mark's Church and contributors to World magazine continued the movement The 1980s and 1990s Language Movement saw itself as an outgrowth and progression of previous Beat aesthetics Today poets and writers in San Francisco still gather at City Lights Bookstore and in Boulder at the Jack Kerouac School of Disembodied Poetics and continue the movement It is now a postmodern movement and probably would be unrecognizable to the earliest Beats It may even be in the process of finally shedding the name Beat But the Movement continues The Historical Dictionary of the Beat Movement covers the movement's history through a chronology an introductory essay and an extensive bibliography The dictionary section has over 700 cross-referenced entries on significant people themes critical issues and the most significant novels poems and volumes of poetry and prose that have formed the Beat canon This book is an excellent access point for students researchers and anyone wanting to know more about the Beat Movement **Minutes of the Charles Olson Society**, 1993 *The Undergraduate's Companion to American Writers and Their Web Sites* Larry G. Hinman, 2000-12-15 An outstanding research guide for undergraduate students of American literature this best-selling book is essential when it comes to researching American authors Bracken and Hinman identify and describe the best and most current sources both in print and online for nearly 300 American writers whose works are included in the most frequently used literary anthologies Students will know exactly what information is available and where to find it **Fieldworks** Lytle Shaw, 2013-01-22 Fieldworks offers a historical account of the social rhetorical and material attempts to ground art and poetry in the physicality of a site Arguing that place-oriented inquiries allowed poets and artists to develop new experimental models of historiography and ethnography Lytle Shaw draws out the shifting terms of this practice from World War II to the present through a series of illuminating case studies Beginning with the alternate national genealogies unearthed by William Carlos Williams in Paterson and Charles Olson in Gloucester Shaw demonstrates how subsequent poets sought to ground such inquiries in concrete social formations to in effect live the poetics of place Gary Snyder in his back to the land familial compound Kitkitdizze Amiri Baraka in a black nationalist community in Newark Robert Creeley and the poets of Bolinas California in the capacious now of their poet-run town Turning to the work of Robert Smithson who called one of his essays an appendix to Paterson and who in turn has exerted a major influence on poets since the 1970s Shaw then traces the

emergence of site specific art in relation both to the poetics of place and to the larger linguistic turn in the humanities considering poets including Clark Coolidge Bernadette Mayer and Lisa Robertson By putting the poetics of place into dialog with site specificity in art Shaw demonstrates how poets and artists became experimental explicators not just of concrete locations and their histories but of the discourses used to interpret sites more broadly It is this dual sense of fieldwork that organizes Shaw s groundbreaking history of site specific poetry
