Chasing Dirt The American Pursuit Of Cleanliness:

Chasing Dirt Suellen Hoy, 1996-10-10 Americans in the early 19th century were as one foreign traveller bluntly put it filthy bordering on the beastly perfectly at home in dirty bug infested malodorous surroundings Many a home swarmed with flies barnyard animals dust and dirt clothes were seldom washed men hardly ever shaved or bathed Yet gradually all this changed and today Americans are known worldwide for their obsession with cleanliness for their sophisticated plumbing daily bathing shiny hair and teeth and spotless clothes In *Chasing Dirt* Suellen Hoy provides a colorful history of this remarkable transformation from dreadfully dirty to cleaner than clean ranging from the pre Civil War era to the 1950s when American s obsession with cleanliness reached its peak Hoy offers here a fascinating narrative filled with vivid portraits of the men and especially the women who helped America come clean She examines the work of early promoters of cleanliness such as Catharine Beecher and Sylvester Graham and describes how the Civil War marked a turning point in our attitudes toward cleanliness discussing the work of the U S Sanitary Commission headed by Frederick Law Olmsted and revealing how the efforts of Florence Nightingale in the Crimean War inspired American women such as Dorothea Dix Clara Barton and Louisa May Alcott to volunteer as nurses during the war We also read of the postwar efforts of George E Waring Jr a sanitary engineer who constructed sewer systems around the nation and who as head of New York City s street cleaning department transformed the city from the nation s dirtiest to the nation s cleanest in three years Hoy details the efforts to convince African Americans and immigrants of the importance of cleanliness examining the efforts of Booker T Washington who preached the gospel of the toothbrush Jane Addams at Hull House and Lillian Wald at the Henry Street Settlement House Indeed we see how cleanliness gradually shifted from a way to prevent disease to a way to assimilate to become American And as the book enters the modern era we learn how advertising for soaps mouth washes toothpastes and deodorants in mass circulation magazines showed working men and women how to cleanse themselves and become part of the increasingly sweatless odorless and successful middle class Shower for success By illuminating the historical roots of America s shift from dreadfully dirty to squeaky clean *Chasing Dirt* adds a new dimension to our understanding of our national culture And along the way it provides colorful and often amusing social history as well as insight into what makes Americans the way we are today

Inside OUT Elizabeth McCormick, 2024-03-14 *Inside OUT* Human Health and the Air Conditioning Era focuses on the enclosed environment of fully conditioned buildings revealing a unique ecosystem with broad implications for human life and a rapidly expanding global footprint Emphasizing the interconnections between buildings and human health equity and environmental sustainability it presents an interdisciplinary holistic analysis of the social behavioral and technological issues of indoor space Over the 20th century advances in mechanical conditioning technologies led to the dispersion and international dominance of the sealed building envelope which casually and progressively disconnected buildings and their occupants from local climatic biological and cultural environments At the same time humans were increasingly pushed

indoors by less tangible socially constructed forces that associated climate control with cleanliness health social status and modernization In this volume a multi disciplinary group of experts on the indoor microbiome from the fields of biology anthropology and architecture come together to thoughtfully reflect on the history properties and meaning of indoor air quality in buildings and to discuss the future of human habitation with a dominant focus on human health in a post pandemic world Taking a human first approach to health and sustainability the authors weave together a compelling analysis of social and technological drivers of conditioned space with arguments for future interventions in the built environment Amid growing awareness of air quality and climate concerns Inside OUT provides a timely discussion of the relationship between building design and human health of relevance to professional and academic readers from across the spectrum of the building industry as well as fields including public health and environmental studies *Clean Virginia Sarah Smith,2008*

From pre historic grooming rituals to New Age medicine from ascetics to cosmetics Clean looks at how different cultures have interpreted and striven for personal cleanliness and shows how throughout history this striving for purity has brought immense social benefits as well as great tragedies Looking at human history through the lens of public baths lavatories laundry teeth cleaning cosmetics food storage and panty liners Virginia Smith here combines archeology psychology biology and other fields to illuminate our modern obsession cleanliness She peppers her entertaining account with engaging and often surprising details The book reveals for instance that even at the earliest stages of human development our bodies produced pleasure giving chemical opiates when things smelled or felt clean inducing us to bathe or at least remove dirty clothes She describes how during the Bronze Age an emerging hierarchy of wealthy elites turned their love of grooming into an explosion of the cosmetic and luxury goods industry greatly affecting the culture and economy of Eurasia and leading to advances in chemistry and medicine Likewise in Greece and Rome citizens focused much of their leisure time on perfecting bathing or just writing about the model athletic body Even today our enlightened medical knowledge could not stop an onslaught of health remedies treatments spas and New Age nature cures all in the pursuit of purity This engrossing and highly original work will introduce you to the customs and ideas of a myriad of cultures across centuries of human history providing a marvelous new perspective on the importance of cleanliness to human civilization *Machines for Living Victoria Rosner,2020-02-04*

Changes in the routines of domestic life were among the most striking social phenomena of the period between the two World Wars when the home came into focus as a problem to be solved re imagined streamlined electrified and generally cleaned up Modernist writers understood themselves to be living in an epochal moment when the design and meaning of home life were reconceived Moving among literature architecture design science and technology Machines for Living shows how the modernization of the home led to profound changes in domestic life and relied on a set of emergent concepts including standardization scientific method functionalism efficiency science and others that form the basis of literary modernism and stand at the confluence of modernism and modernity Even as modernist writers criticized the

expanding reach of modernization into the home they drew on its conceptual vocabulary to develop both the thematic and formal commitments of literary modernism Rosner's work develops a new methodology for interdisciplinary modernist studies and shows how the reinvention of domestic life is central to modernist literature

Environmental Advertising in China and the USA Xinghua Li, 2016-05-05 Since the late 1980s green consumerism has been hailed in the West as an efficient solution to environmental problems However Chinese consumers have been slow to warm up to eco friendly products Consumers prefer SUVs to hybrid cars health supplements and snake oil medicines to organic foods and eco fashion is still secluded in high end designer studios These choices contradict the findings of many sustainable lifestyle surveys that claim to register a rising desire for green products among the Chinese This book examines the psycho cultural differences that disrupt the translation of eco friendly appeals to China by analyzing environmental advertising It explores the different notions of green the structures of desire that underlies the advertisements and how they are shaped by ideological cultural and historical differences Rather than arguing the superiority of the American or Chinese version of green consumerism the book interrogates the role of advertising in the global spread of Western ideologies and explores the possibilities for consumers to resist transnational corporate hegemony in the green movement This book fills an important gap in the critical scholarship on green marketing and should be of interest to students and scholars of environment studies green advertising and marketing environmental communication and media studies China studies and environmental sociology ethics and cultural studies

In Bed with Procrustes Patricia J. Thompson, 2003 In Bed with Procrustes Feminism's Flirtation with Patriarchy is the second volume in a Hestia Trilogy It continues Professor Thompson's exploration of the Hestian Hermean Dual Systems Paradigm introduced in *The Accidental Theorist: The Double Helix of Everyday Life* Drawing on two ancient Greek mythemes Hestia guardian of the homeplace and Hermes guardian of the marketplace she introduces a metaphorical language with which to examine the private public civic domestic familial political aspects of the human condition to reclaim the family ecosystem as a site for feminist theory She challenges one size fits all theories based on patriarchal paradigms the bed of Procrustes and suggests how a Hestian feminist perspective can be applied to the academic disciplines of classics philosophy history political science sociology psychology economics and ethics

Counterculture Green Andrew G. Kirk, 2007 For many it was more than a publication it was a way of life The Whole Earth Catalog billed itself

as Access to Tools and it grew from a Bay Area blip to a national phenomenon catering to hippies do it yourselfers and anyone interested in self sufficiency independent of mainstream America now known as living off the grid In recovering the history of the Catalog s unique brand of environmentalism historian Kirk recounts how Stewart Brand and the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement human ingenuity and sustainable living Kirk shows us that Whole Earth was more than a mere counterculture fad At a time when many of these ideas were seen as heretical to a predominantly wilderness based movement it became a critical forum for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way From publisher description

Coming of Age Michael Schaller, Virginia Scharff, Robert D. Schulzinger, 1998 This is a balanced and thorough treatment of domestic politics foreign policy and social and cultural history that illuminates United States history from Reconstruction to the present It is informed throughout by a post Cold War perspective that emphasizes continuities between the Cold War era and the present Back cover

Cultural Turns/geographical Turns Ian Cook, 2000 This book addresses the impact significance and characteristics of the cultural turn in contemporary geography It focuses on the development of the cultural geography subdiscipline and on what has made it a peculiar and unique realm of study It demonstrates the importance of culture in the development of debates in other subdisciplines within geography and beyond In line with these previous themes the significance of space in the production of cultural values and expressions is also developed Along with its timely examination of the health of the cultural geographical subdiscipline this book is to be valued for its analysis of the impact of cultural theory on studies elsewhere in geography and of ideas of space and spatiality elsewhere in the social sciences The scope of the book is therefore broad covering work that spans the geographical discipline and even going beyond that to touch on debates in the social sciences and humanities The book s potential readership is also broad The summary chapters which precede each section will appeal to undergraduate students whilst chapters written by individuals leading their fields will be compulsory reading for researchers at all levels of higher education

Chicago 1890 Joanna Merwood-Salisbury, 2009 Chicago s first skyscrapers are famous for projecting the city s modernity around the world But what did they mean at home to the Chicagoans who designed and built them worked inside their walls and gazed up at their fa ades Answering this multifaceted question Chicago 1890 reveals that early skyscrapers offered hotly debated solutions to the city s toughest problems and in the process fostered an urban culture that spread across the country An ambitious reinterpretation of the works of Louis Sullivan Daniel Burnham and John Wellborn Root this volume uses their towering achievements as a lens through which to view late nineteenth century urban history Joanna Merwood Salisbury sheds new light on many of Chicago s defining events including violent building trade strikes the Haymarket bombing the World s Columbian Exposition and Burnham s Plan of Chicago by situating the Masonic Temple the Monadnock Building and the Reliance Building at the center of the city s cultural and political crosscurrents While architects

and property owners saw these pioneering structures as manifestations of a robust American identity immigrant laborers and social reformers viewed them as symbols of capitalism's inequity Illuminated by rich material from the period's popular press and professional journals Merwood Salisbury's chronicle of this contentious history reveals that the skyscraper's vaunted status was never as inevitable as today's skylines suggest [Program of the ... Annual Meeting](#) Organization of American Historians. Meeting,1997 **Daily Life in the United States, 1920-1940** David E. Kyvig,2004 The twenties and thirties witnessed dramatic changes in American life increasing urbanization technological innovation cultural upheaval and economic disaster In this fascinating book the prize winning historian David E Kyvig describes everyday life in these decades when automobiles and home electricity became commonplace when radio and the movies became broadly popular The details of work life domestic life and leisure activities make engrossing reading and bring the era clearly into focus **Insider's Guide to Book Editors, Publishers, and Literary Agents, 1996-1997** Jeff Herman,1995-10-25 No other book gives aspiring authors the inside scoop on the names and specialties of acquisitions editors This vital information makes all the difference when submitting a book proposal or manuscript by keeping writers of all genres on top of the rapidly changing world of publishing Who's moved where who's new to the scene who's gone for good it's all here in one big volume

Conceiving the Future Laura L. Lovett,2007 Conceiving the Future Pronatalism Reproduction and the Family in the United States 1890 1938 **Modern Mothers in the Heartland** Lynne Curry,1999 In the early twentieth century ambitious social welfare campaigns linked the improvement of health to the broader aim of modernizing American life Lowered mortality rates especially among infants and young children became for reformers a barometer by which to measure society's overall progress To date most analyses of Progressive Era child welfare movements have concentrated on urban areas in the Northeast and the national leadership role played by the Children's Bureau Modern Mothers in the Heartland in contrast shifts the focus to the Midwest Illinois provides an interesting case study because its rates of infant and maternal mortality tended to be higher than those of other midwestern states and Chicago's rates were consistently higher than those of other major industrial centers Drawing on local and state sources to reconstruct the nature of a maternal and child health work Lynne Curry highlights the interactive character of health reform policy makers clients of community health services practitioners and the volunteers who worked with them negotiated the final outcomes of the campaign's stated aims Situating maternal and child health reform in its historical and regional contexts this study uses information about Illinois's distinctive social economic and political history even its geography to enhance the analytical picture **Preserving the Nation** Thomas R. Wellock,2007-04-17 This renamed environmental movement focused less on efficient use of resources and more on creating healthy ecosystems and healthy people free of risks from pollution and hazardous wastes By 1970 environmentalism enjoyed widespread popular support and bipartisan appeal What all three movements always shared was a common recognition of the limits of America's natural resources and environment a belief in preserving them for generations

to come and a faith in at least some government environmental action rather than relying purely on private solutions Not only does the history of these movements bring to light much about the expanding role of government in environmental regulation and the growth of the modern American state but a look at environmental campaigns over the course of the twentieth century reveals a great deal about the racial gender and class divisions at work in the ongoing efforts to preserve the environment
