Mobility between Africa, Asia and Latin America Ute Rösenthaler,Alessandro Jedlowski,2017-08-15 Trade connections and cultural exchange between Africa and the rest of the global South have existed for centuries Since the end of the Cold War these connections have expanded and diversified dramatically with emerging economies such as China India and Brazil becoming increasingly important both as sources of trade and as a destination for African migrants But while these trends have attracted growing scholarly attention there has so far been little appreciation of the sheer breadth and variety of this exchange or of its deeper social impact This collection brings together a wide array of scholarly perspectives to explore the movement of people commodities and ideas between Africa and the wider global South with rich empirical case studies ranging from Senegalese migrants in Argentina to Lebanese traders in Nigeria The contributors argue that this exchange represents a form of globalization from below which defies many of the prevailing Western assumptions about migration and development and which can only be understood if we consider the full range and complexity of migrant experiences Multidisciplinary in scope Mobility between Africa Asia and Latin America is essential reading for students and scholars across the social sciences interested in the interconnected

economic and social make up of the global South

Drugs as Weapons Against Us John L. Potash, 2015-05-25 *Drugs as Weapons Against Us* meticulously details how a group of opium trafficking families came to form an American oligarchy and eventually achieved global dominance This oligarchy helped fund the Nazi regime and then saved thousands of Nazis to work with the Central Intelligence Agency CIA operations such as MK Ultra pushed LSD and other drugs on leftist leaders and left leaning populations at home and abroad Evidence supports that this oligarchy further led the United States into its longest running wars in the ideal areas for opium crops while also massively funding wars in areas of coca plant abundance for cocaine production under the guise of a war on drugs that is actually the use of drugs as a war on us *Drugs as Weapons Against Us* tells how scores of undercover U S Intelligence agents used drugs in the targeting of leftist leaders from SDS to the Black Panthers Young Lords Latin Kings and the Occupy Movement It also tells how they particularly targeted leftist musicians including John Lennon Jimi Hendrix Kurt Cobain and Tupac Shakur to promote drugs while later murdering them when they started sobering up and taking on more leftist activism The book further uncovers the evidence that Intelligence agents dosed Paul Robeson with LSD gave Mick Jagger his first hit of acid hooked Janis Joplin on amphetamines as well as manipulating Elvis Presley Eminem the Wu Tang Clan and others

Saints Françoise Meltzer, Jas Elsner, 2011-12 While the modern world has largely dismissed the figure of the saint as a throwback we remain fascinated by excess marginality transgression and porous subjectivity categories that define the saint In this collection Fran oise Meltzer and Jas Elsner bring together top scholars from across the humanities to reconsider our denial of saintliness and examine how modernity returns to the lure of saintly grace energy and charisma Addressing such problems as how saints are made the use of saints by political and secular orders and how holiness is personified *Saints* takes us on a photo tour of Graceland and the cult of Elvis and explores the changing political takes on Joan of Arc in France It shows us the self fashioning of culture through the reevaluation of saints in late antique Judaism and Counter Reformation Rome and it questions the political intent of underlying claims to spiritual attainment of a Muslim sheikh in Morocco and of Sephardism in Israel Populated with the likes of Francis of Assisi Teresa of Avila and Padre Pio this book is a fascinating inquiry into the status of saints in the modern world
