## **Attack On Taranto:**

**Taranto** Christopher O'Connor, 2025-02-14 During World War II on the night of November 11th 1940 The British Royal Navy launched the first all aircraft ship to ship naval attack against the Italian Navy Taranto The Raid The Observer The Aftermath tells the story of this raid and its significance to the attack on Pearl Harbor one year later More than a year before the attack on Pearl Harbor aircraft of the Royal Navy s Fleet Air Arm executed a surprise attack on ships of the Italian Fleet anchored in the harbor of Taranto The raid on Taranto anticipated the attack on Pearl Harbor and historians have seen it as a precursor to the larger and more devastating strike by the Imperial Japanese Navy The Taranto raid takes on added significance with the little known fact that an officer of the US Navy was aboard the British aircraft carrier and reported extensively on the attack to the Office of Naval Intelligence in Washington For the first time this book tells the entire story of Taranto and its relevance to Pearl Harbor The book describes the attack in detail and clears up mistakes and misconceptions that appeared in previous publications The damage was done by 21 planes flown off the deck of HMS Illustrious with daily reconnaissance flights of the Royal Air Force Illustrious took to sea the radar and aircraft control procedures that helped win the Battle of Britain From British sources the book describes the techniques used to allow the successful use of aerial torpedoes in the shallow waters of Taranto harbor About the Author Christopher O Connor earned a BA from Union College and an MBA from Northwestern University For fifteen years he worked as a hospital administrator In 1993 he began a new career as a full time father to five children His wife Susan is a dentist in private practice since 1987 The development of this book began with a footnote in Prange s At Dawn We Slept This is his first book but he has previously published articles in hospital management journals and op ed pieces in newspapers The book is based on original research in the National Archives in Washington DC Born in Springfield MA Mr O Connor now lives in the Blue Ridge Mountains of Southwest Virginia [Taranto 1940](#) Angus Konstam, 2015-11-20 The Royal Navy s attack on Taranto in 1940 heralded a new age of warfare It was the decisive moment in a struggle for dominance of the Mediterranean that had gone on for months as the British and Italian navies both looked to secure maritime supply routes for their colonies With the enormous demands of a global war beginning to tell the British capital ships were simply too thinly spread for a large fleet action against Taranto where the bulk of the Italian fleet lay menacingly How was the Royal Navy to eliminate the threat of the Regia Marina This is the story of one of World War II s most devastating raids recounting how a handful of obsolete Fairey Swordfish biplanes swooped in and destroyed an Italian battleship and badly damaged two more With expert analysis detailed colour illustrations and a gripping narrative this book explains the origins of the attack its planning and execution and what happened in the aftermath **The Attack on Taranto** Brian Betham Schofield, 1973-01-01 **Attack on Taranto** Thomas P. Lowry, John Wellham, 2017-09-15 On November 11 1940 21 slow canvas covered British warplanes launched from the carrier Illustrious attacked the harbor at the Italian port of Taranto and put most of the Italian navy out of commission This

all but forgotten operation the authors argue deserves historical recognition as an inspirational precedent for the Japanese raid on Pearl Harbor 13 months later Taranto demonstrated that battleships in a shallow heavily defended harbor could be sunk by a handful of torpedo bombers That lesson Adm Isoroku Yamamoto commander in chief of the Japanese fleet learned well while the American military virtually ignored it By this single stroke the balance of naval power in the Mediterranean was decisively altered Winston S Churchill **The Attack on Taranto** B. B. Schofield,1973 *The Attack on Taranto* Thomas Power Lowry,John W. G. Wellham,1995 The November 1940 British attack against the Italian fleet provided a perfect example of surprise and swift devastation a lesson not lost on the Japanese Attack on Taranto November 11 1940 John C. Date,2002 **Swordfish** David Wragg,2005-01 The daring British air raid that inspired the Japanese attack on Pearl Harbor In November 1940 Britain was isolated in its stand against Nazi Germany and its ally Italy The country could not afford to lose control of the Mediterranean but the Royal Navy was already overstretched by the U boat war and the threat of invasion Italy s fleet of modern battleships presented a grave threat to our communications with Egypt and the Suez Canal On the night of 11 November 1940 42 members of the Fleet Air Arm took off in 21 obsolete Swordfish biplanes launched from HMS Illustrious Their target the Italian fleet anchorage at Taranto Pressing home their attack in the face of intense anti aircraft fire and searchlights they torpedoed and sank three battleships Incredibly all but two of the biplanes survived The Italian fleet was crippled and the world took note that Britain was far from defeated No one was more impressed than the Japanese who noted how a fleet in harbour could be demolished by air attack In this new account of the Royal Navy s most daring operation of the Second World War David Wragg draws on British and Italian records as well as interviews with the aircrew to tell the full story of a night that changed the course of the war *From Versailles to Mers el-Kébir* George E Melton,2015-10-15 The two decades before World War II were some of the most unsettled in modern history From Versailles to Mers el K bir examines one of the most unlikely and perhaps least studied relationships to form during that turbulent era the alliance of the Royal Navy and the French fleet Beginning from a global perspective and gradually narrowing George E Melton brings new insights to the diplomacy that led to this often strained cooperation and reinterprets some of the most important events of early World War II By the mid 1930s the Royal Navy and French fleet had overextended themselves with global defense commitments owing mainly to the collapse of the world war alliances and to an ominous shift in the balance of world naval power To maximize their power England and France combined their assets in a naval alliance Successful in keeping both Italy and Japan neutral early in the war that alliance brought the French and English success against German surface raiders and U boat operations in the Atlantic The two powers were on such good terms that in1939 during a joint operation to the north of Scotland HMS Hood and its escorts served for a week under the command of Vice Admiral Marcel Gensoul French commander of the Dunkerque Afterward the British seamen affectionately referred to the Dunkerque as the friend of the Hood Still the union was not an altogether happy one The global defense imperatives of the Admiralty frustrated

the regional ambitions of the Rue Royale The union ultimately came to a violent end when the British attacked the French squadron at Mers el K bir in the summer of 1940 after France had signed an armistice with Germany What followed was a poorly constructed cover up to mask the operation as a regrettable but necessary action Melton s study challenges this popular myth Thoroughly researched and documented From Versailles to Mers el K bir concludes that the operation was a disastrous failure **Air Force and Space Digest** ,2017 [Air Force Magazine](#) ,2017 [Aircraft Carriers](#) Norman Polmar,1969 *Strike from the Sea* Robert Jackson,1970 Oversight over british maritime luftoperationer fra 1909 1969

**Journal of the Aeronautical Sciences** ,1940 **Bombers over Sand and Snow** Alun Granfield,2011-10-05 205 Group RAF provided the only mobile force of heavy night bombers in the Mediterranean theater in the Second World War It operated mainly from bases in Egypt Libya Tunisia and Italy with occasional excursions to Malta Greece and Iraq attacking tactical and strategic targets according to the demands of the wider war in the theater The force was relatively small when compared with the numbers of aircraft available to Bomber Command in the Western European theater and it carried on using the venerable Vickers Wellington long after this aircraft had been relegated to the training role in the United Kingdom Like their UK based counterparts the night bombers were intended to operate in a strategic role bombing targets away from the immediate battlefield However the demands of the war in the Middle East and Mediterranean soon diverted the bombers from their strategic role and saw them operating much closer to the front line in support of the hard pressed ground forces The bomber squadrons in North Africa usually operated from Advanced Landing Grounds scraped out of the bare desert with only a few tents for shelter In Italy they did have more or less permanent bases but they still lived in tents if they were lucky often surrounded by a sea of mud There were no pubs often no beer and the only contact with their families were the eagerly awaited letters from home Also the squadrons in England did not have Rommel continually knocking on their door Thus the operations of the night bombers in the Middle East and Mediterranean were often governed by the general progress of the war in the theater The ebb and flow of the land battles not only determined the activities of the night bombers but also determined their location This book tells their story **Journal of the Royal United Service Institution, Whitehall Yard** ,1927 **Italian Battle Fleet 1940-43** Enrico Cernuschi,2024-04-25 A comprehensive illustrated account of the wartime Italian battle fleet from its ships and technology to command structure logistics codebreaking and more In the 1920s the Italian Navy faced great challenges Mussolini s ambitious Italy turned away from its alliance with Britain and France and the Regia Marina faced the prospect of confronting both the French Navy and the Mediterranean Fleet of the Royal Navy In the years leading up to World War II the Regia Marina built and deployed a powerful battleship led fleet known in Italy as La Squadra intended to make the Mediterranean an Italian sea once more In this book Italian naval historian Enrico Cernuschi offers a fresh assessment of the wartime Italian battle fleet based on his lifetime of primary source research from both Italian and Allied sources It offers a comprehensive portrait of this proud armada how it was devised and built and how it operated

and fought It covers a multitude of factors often overlooked such as Italy's naval codebreakers the fleet's logistics and the qualities and limitations of Italian industry that supported it The book also provides a concise account and analysis of the battle fleet's activities through the war from major clashes such as the Battle of Calabria to lesser known expeditions The author's research into Italian wartime primary sources overturns some myths still commonplace in Anglo American accounts Illustrated with superb new artwork maps and 3D diagrams and featuring rare photos this book is a fascinating account of Italy's great fleet of World War II
