**The Decline and Fall of Practically Everyone** Victor G. Novander Jr.,2006-03-07 The Decline and Fall of Practically Everyone is a concise history of humanity It is written from the point of view of someone whose outlook on life has been transformed by primal therapy and who has become a lifelong primal person No other history has been written from this unique perspective The Decline and Fall of Practically Everyone offers to each one who is ready for it a fresh glimpse into his own history and into a sound understanding of the course all human history has taken toward the devolution of original human consciousness into unconscious self awareness In Part I the author defines consciousness unconscious self awareness

primal pain primaling and what living a primal life involves He pictures the primal life as putting ones feet on the path toward greater consciousness The authors stated purpose is to wake us up to our condition of unconscious self awareness He feels that unless we are awakened humanity will continue to careen toward destroying itself and the life sustaining nurture of Earth The authors approach to the necessary awakening is historical If one can see history through primal eyes one will not only see the devolution of consciousness into unconscious self awareness down through the millennia one will sense it in ones own life and do something about it Then in Part II he explores various attributes of unconscious self awareness that are relevant to a primal understanding of history These subjects include the basic split the point at which unconscious self awareness completely suppresses consciousness the location and upward movement of unconscious self awareness in the body the experience of time and space the changing nature of the supreme deity and the four motifs of religion In Part III the author begins to explore the historical devolution of original consciousness into unconscious self awareness Subjects revealing the devolution include beliefs regarding the origin of the cosmos and of humanity the destiny of the dead shamanism the several millennia long invasions by Warrior God societies of Mother Goddess cultures and the revolutionary religions of Buddhism and Christianity In the authors view everything that has happened since the 1st millennium B C E is but a footnote to it and he therefore skips to the Americas in the 15th century In Part IV the author concentrates on greed and lust for power as the chief characteristics of unconscious self awareness in the modern period He begins with Columbus and the euphemistically named Age of Exploration to illustrate how greed and the lust for power dominated the Western European Colonial powers Next he shows how the Age of Enlightenment and its major philosophers and economists provided the basis for our Founding Fathers to craft a constitution that enshrined themselves as a rich and powerful elite ruling class To illustrate the greed and lust for power of unconscious self awareness in the rest of U S history he discusses economics individualism class and class struggle differences among people and between men and women in the degree of unconscious self awareness family parenting models unilateralism as the national expression of individualism and the U S as a nation dominated by greed by a lust for power by a quest for world domination and by the willingness to use violence and terror to achieve these ends In the final chapter the author reiterates his purpose of awakening his readers from the state of unconscious self awareness In contrast to a strictly psychological approach to fulfill his purpose the author has adopted in addition a perspective that encompasses the whole sweep of human history He ends by offering a cautious optimism for the future

TO PRESUME to multiply books in this day of excellent writers and learned book makers is a rash thing perhaps for a novice It may even be a presumption that shall be met by the production itself being driven from the market by the keen searching criticism of not only the reviewers but less noted objectors And yet there are books that meet a ready sale because they seem like Ishmaelites against everybody and everybody against them Whether this work shall ever accomplish the design of the author may not at all be determined by its sale While I hope to secure some pecuniary gain that I may accompany it with a companion illustrating what our women have done yet by no means do I send it forth with the sordid idea of gain I would rather it would do some good than make a single dollar and I echo the wish of Abou Ben Adhem in that sweet poem of that name written by Leigh Hunt The angel was writing at the table in his vision The names of those who love the Lord Abou wanted to know if his was there and the angel said No Said Abou I pray thee then write me as one that loves his fellow men That is what I ask to be recorded of me The angel wrote and vanished The next night It came again with a great awakening light And showed the names whom love of God had blessed And lo Ben Adhem s name led all the rest I desire that the book shall be a help to students male and female in the way of information concerning our great names I have noticed in my long experience as a teacher that many of my students were wofully ignorant of the work of our great colored men even ignorant of their names If they knew their names it was some indefinable something they had done just what they could not tell If in a slight degree I shall here furnish the data for that class of rising men and women I shall feel much pleased Herein will be found many who had severe trials in making their way through schools of different grades It is a suitable book it is hoped to be put into the hands of intelligent aspiring young people everywhere that they might see the means and manners of men s elevation and by this be led to undertake the task of going through high schools and colleges If the persons herein mentioned could rise to the exalted stations which they have and do now hold what is there to prevent any young man or woman from achieving greatness Many yea nearly all these came from the loins of slave fathers and were the babes of women in bondage and themselves felt the leaden hand of slavery on their own bodies but whether slaves or not they suffered with their brethren because of color That sum of human villainies did not crush out the life and manhood of the race I wish the book to show to the world to our oppressors and even our friends that the Negro race is still alive and must possess more intellectual vigor than any other section of the human family or else how could they be crushed as slaves in all these years since 1620
