Attitudes I:

The Study and Measurement of Health Attitudes ... Oliver Erasmus Byrd, 1940 **Free Will and Reactive Attitudes**

Paul Russell, Michael McKenna, 2016-04-22 The philosophical debate about free will and responsibility has been of great importance throughout the history of philosophy. In modern times this debate has received an enormous resurgence of interest and the contribution in 1962 by P. F. Strawson with the publication of his essay *Freedom and Resentment* has generated a wide range of discussion and criticism in the philosophical community and beyond. The debate is of central importance to recent developments in the free will literature and has shaped the way contemporary philosophers now approach the problem. This volume brings together a focused selection of the major contributions and reactions to the free will and responsibility debate inspired by Strawson's contribution. McKenna and Russell also provide a comprehensive overview of the debate. This book will be of great value to scholars of Strawson and those interested in the free will debate more generally.

The Broadview Introduction to Philosophy Volume I: Knowledge and Reality Andrew Bailey, 2019-06-18

This volume of *The Broadview Introduction to Philosophy* offers a thoughtful selection of readings in epistemology, metaphysics, and the philosophy of religion. Substantial selections from important historical texts are provided, including the entirety of Descartes's *Meditations*, as are a number of contemporary readings on each topic. Unlike other introductory anthologies, *The Broadview* offers considerable apparatus to assist the student reader in understanding the texts without simply summarizing them. Each selection includes an introduction discussing the context and structure of the primary reading, as well as thorough annotations designed to clarify unfamiliar terms, references, and argument forms.

Delusions and Other Irrational Beliefs Lisa Bortolotti, 2009-11-12 Delusions are a common symptom of schizophrenia, dementia, and other psychiatric disorders. Though delusion is commonly defined as a false and irrational belief, there is currently a lively debate about whether delusions are really beliefs and indeed whether they are even irrational. The book is an interdisciplinary exploration of the nature of delusions. It brings together the psychological literature on the aetiology and the behavioural manifestations of delusions and the philosophical literature on belief ascription and rationality. The thesis of the book is that delusions are continuous with ordinary beliefs, a thesis that could have not only significant theoretical implications for debates in the philosophy of mind and psychology but also practical implications for psychiatric classification and the clinical treatment of subjects with delusions. Based on recent work in philosophy of mind, cognitive psychology, and psychiatry, the book offers a comprehensive review of the philosophical issues raised by the psychology of normal and abnormal cognition, defends the doxastic conception of delusions, and develops a theory about the role of judgements of rationality and self-knowledge in belief ascription.

Free Will Derk Pereboom, 2009-11-13 A unique anthology featuring contributions to the dispute over free will from Aristotle to the twenty-first century. Derk Pereboom's volume presents the most thoughtful positions taken in this crucial debate and discusses their consequences for free will's traditional corollary.

moral responsibility The Second Edition retains the organizational structure that made its predecessor the leading anthology of its kind while adding major new selections by such philosophers as Spinoza Reid John Martin Fischer Robert Kane Galen Strawson and Timothy O Connor Hackett Readings in Philosophy is a versatile series of compact anthologies each devoted to a topic of traditional interest Selections include classical modern and contemporary writings chosen for their elegance of exposition and success at stimulating thought and discussion

Ethical Theory Russ Shafer-Landau,2012-06-20 The second edition of Ethical Theory An Anthology features a comprehensive collection of more than 80 essays from classic and contemporary philosophers that address questions at the heart of moral philosophy Brings together 82 classic and contemporary pieces by renowned philosophers from seminal works by Hume and Kant to contemporary views by Derek Parfit Susan Wolf Judith Jarvis Thomson and many more Features updates and the inclusion of a new section on feminist ethics along with a general introduction and section introductions by Russ Shafer Landau Guides readers through key areas in ethical theory including consequentialism deontology contractarianism and virtue ethics Includes underrepresented topics such as moral knowledge moral standing moral responsibility and ethical particularism

Proceedings of the Annual Meeting National Association of Women Deans and Counselors,1930 *Personal Value* Toni Rønnow-Rasmussen,2011-06-23 Certain things like justice have impersonal value Other things like your parents carry personal values they have value for you Besides whatever value they have they are valuable to you The philosophical literature as well as non philosophical literature is inundated with suggestions about the kinds of thing that are good for us or if it is a negative personal value what is bad for us This is a stimulating and vivid area of philosophical research but it has tended to monopolize the notion of good for linking it necessarily to welfare or well being Since these more or less well grounded pieces of advice are seldom accompanied by an analysis of the notion of good for there is a need for such an analysis R nnow Rasmussen remedies this need by offering a novel way of analyzing the notion of personal value He defends the idea that we have reason to expand our classical value taxonomy with these personal values By fine tuning a pattern of value analysis which has roots in the writings of the Austrian philosopher Franz Brentano this sort of analysis will come to cover personal values too In addition R nnow Rasmussen makes substatial contributions to a number of issues including hedonism vs preferentialism subjectivism vs objectivism value bearer monism vs value bearer pluralism and the wrong kind of reason problem all of which are much debated among today s value theorists
